Enhance your department's DV response with Forseti's Honest Assessment Response Tool™. Conduct LAP assessments on location, instantly connect victims with local services, and reduce time spent on-scene.

Coordinated Community Collaboration™

Unites stakeholders across the criminal and social justice systems through dynamic data sharing, multi-agency access and real-time alerts.

H.A.R.T.™ is an integral part of the Maryland Network Against Domestic Violence's Lethality Assessment Program 2.0 (LAP).

Teams & Alerts automatically notify key staff of immediate needs.

Integrated Audit Logs ensures transparency, accountability, as well as officer and department peace of mind.

All data is stored on the Amazon Web Services (AWS) GovCloud. AWS GovCloud is FBI certified and CJIS compliant.

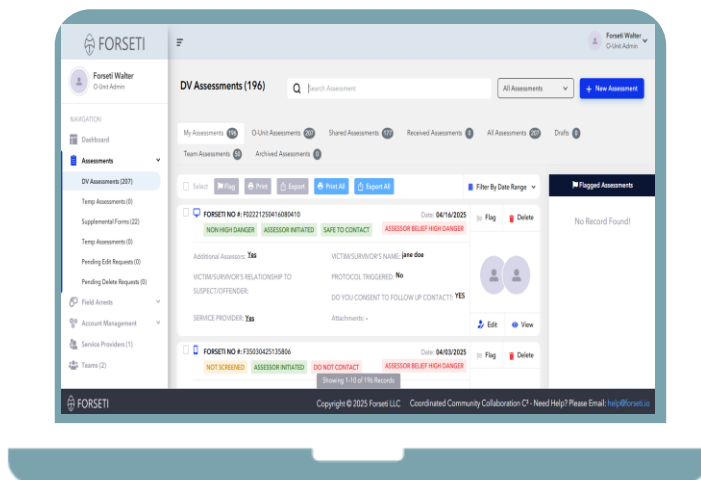

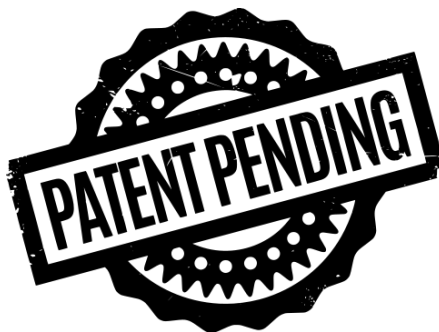

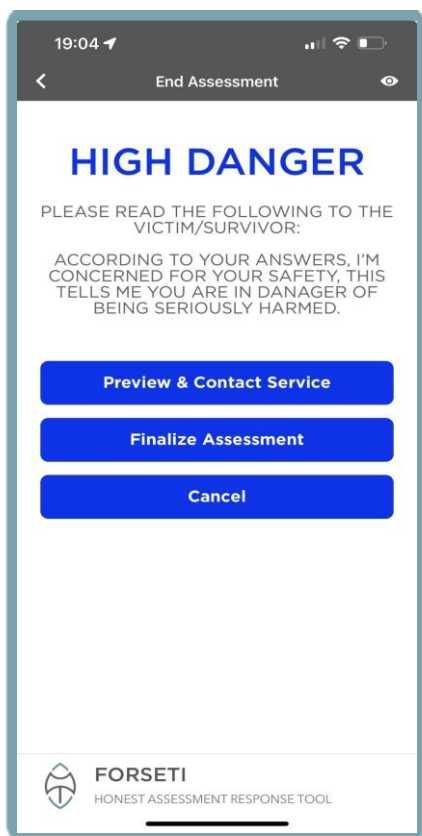

Accessible on all devices (iOS, Android and/or Windows).
Mobile, Tablet and/or Mobile Digital Terminal (MDT).

Open API allows for integration with other software systems.

H.A.R.T.™ DV

Secure data sharing instantly refers at-risk individuals to victim advocates, simultaneously notifying all community partners with a need to know.

Mobile App offline functionality / Store-and-Forward allows for assessments to be conducted without cell signal.

Multi-Factor Authentication (MFA) via email or SMS/text.
Single Sign On (SSO) available for OKTA, Microsoft, and Google.

All Forseti software is highly customizable and conforms to your agency's policies and procedures.

The security of your data is our top priority - Forseti is NIBRS compliant, CJIS compliant, and SOC 2 Type II audited.
