The legislature finds that there are 6 significant public infrastructure, higher education, home loans, and 7 small business development needs, including those involving minor-8 ity- and women-owned business enterprises, of the state that are unmet. 9 The legislature further finds that there are opportunities to use the 10 state's depository assets to generate additional benefit for the people 11 and the economy of the state.  - 3. The mission of the bank is to use New York's depository assets in ways that afford most efficient use of taxpayer revenues and public resources for the benefit of the people and economy of the state. The legislature intends for the bank to apply business strategies to manage taxpayer revenues while concurrently meeting identified needs and strategic opportunities across the state. In achieving its purpose of improving public infrastructure and increasing access to higher education, creating a pathway to home ownership and strengthening the state's economy by investing in small businesses, including minority- and women-owned business enterprises, and farmers, the legislature intends for the bank to adhere to the following priorities:
 - (a) Institutional safety and soundness;
