Stopped @ book 3 I seriously don't know what the hype is all about with these books? The story was tedious and uninteresting nor was the sex scene no where near is good as people went on about. super_slow_the_ultimate_exercise_protocol.pdf I was hoping that the storyline would get better if I kept reading/listening, but It NEVER did. What a waste of time and money. How this series is getting compared with being better then 50 shades is beyond me....Its laughable...Just sayin.... This doesn't even come close to being as good as 50 shades nor did the sex between Aiden and Sienna come close to being as hot as Christian and Anastasia! Sienna was so damn immature and annoying I just wanted to throat punch her.. how do i reset my keurig k4Q Aiden wasn't any better! Overall these books are horrible..... DO NOT WASTE YOUR MONEY!Now I can only pray I get my refund back from Galatea Audiobook review: I don't know who the narrators were, and I never thought I would say this, but I can officially say I have now listened to two of the most worst narrators in my life! They were both cringe worthy... more so the person that was narrating Aiden.. audiobook dnf-books heroine-has-a-backbone February 12, 2022More a 2 and a half. The main character is childish. It is difficult to relate to her. And the streaming app to read the book... meh. Not worth the 6 hour wait between chaptersMay 10, 2022Do not download the app and don't pay for anything!! The first chapters pull you in, but it just turns out to be a terrible book. Not worth it,January 15, 2022Hmmm i want to give this a 3.75..... where do I start. First off, it is a pain that you can only read this on Galatea, but its a book 'streaming' site right? It's not that great and apparently its been around for awhile. The app itself isnt very user friendly and It doesn't seem like there's a lot of technical support to make it better.I believe the author is Saphir for books 1-5, but then when book 6 starts the beginning of the 'page' shows that its a screen play/script and says a whole bunch of weird stuff.... And honestly the writing is a bit off. formato de perfil de puesto servir ejemplo And if this book has been around for a bit I'm shocked that someone else hasn't added this book onto Goodreads yet! Or maybe I wasnt searching properly, or maybe it's true that the later books aren't written by Saphir and thats why it didn't show up on her author list???? But not really knowing the titles of the bother books in the series it was hard for me to separate all of them. About the story itself, books 1-5 were great! The werewolf love story about Sienna and Aiden was suspenseful and kept me going for 2 days! It even made me subscribe a year so I can get more of these types of books/stories! However, now reflecting back, Sienna turned into a whiny annoying B* and I sort of understand why Michelle, Si's best friend, is always sort of pissed at her. Although Michelle also did a lot of other annoying things and she was also a bit of a B* too!Now that I think more about it, the writing wasnt amazing, but the author told a good story in the end and I was entertained. Not sure if i'll renew my subscription for next year on Galatea though. Oh and the reason I subscribed i stead of buying regular points? Was because the point system to read books was way more expensive! So.... Do what you need to do,June 20, 2022What in the actual hell is this? No stars, negative stars. A friend I'll no longer take book recs from claimed it was "twilight for adults but sooooo good" and I stupidly gave it a go. Did not finish, weird werewolf wanna be porn. Wasted time. May 1, 2022So bad! I REALLY wanted to like this series.The main character is juvenile and her inconsistent decision making is incredibly frustrating. She says she wants something or does something for one reason then has an inner monologue that reads like a middle schooler before impulsively ditching everything and doing whatever for an opposite reason. cancion del ropavejero de cri cri letra.pdf I'd be persuadable if it was about personal growth, but there was very little of that. Petulant, bratty, egocentric, and chronically runs away at the worst moment making the hero ditch his responsibilities and chase her because of a tantrum so he can save her from nothing but this moments emotions. Then she seems to care little, if at all, about her more realistic consequences of her behavior and the result of the hero walking away. I can't even call her an antihero. She's just terrible. I got through book one thinking it could be redeemed, but by halfway through book 5 I was pulling my hair out in agitation and forcing myself through every chapter. This is one of the only series I've ever given up on. fast times at ridgemont high book pdf free I have no regrets. cours de latin.pdf It was not worth any of it. Don't bother,June 25, 2022At its best, it is nothing more than formulastic wolf-mance where others have done better. At its worst, it is a guidebook for impressionable young women to be stupid AF and enable their own delusions and excuse their own weaknesses and ignorances. There is constant self-victimization because of the MC's own decisions at the detriment and harm to other charactersThe author is constantly asserting characteristics for the MC that she simply does not have. Actions speak louder than words and everything the MC does goes against what the author asserts for the character. It is beyond annoying. I am typically the type of person that has to finish a series or book until the end. There have only been a handful of books that were simply so bad or annoying that I just would not finish reading. I'm halfway through book 3 and I'm not sure I can continue with this dribble. I had hoped for some MC redemption but after almost 3 books, there has been very little growth or self-actualization. If anything she just gets worse. I don't understand how this can be so "popular". The sexual content, if you can even call it that, was so cold and senseless that I found myself turned off and actually hoping it would end sooner. I found myself rolling my eyes at the authors's writing, the characters' dialogue and actions.

That annoyance was a constant throughout the entire 3-ish books that I've been able to endure. I do not understand how others find this immature BS palatable to even make a movie. I guess Hollywood doesn't care as long as it's got some following and marketability which some fool has deemed "better than 50 shades". I never read 50 shades but it must have been horrible.August 8, 2022Very annoyed at the author. Firstly there are dozens of names for a vagina and all the author can come up with is "my sex".. are you for real?! As others have said the sex scenes aren't that great and they're rather excessive. It's like watching a porno, too much sex and not enough story substance. I'm also incredibly irked at the attempts to have Canadian characters in the story when the author has clearly done absolutely NO research on Canada whatsoever! Firstly we'd have more than 1 pack, we aren't such a small country that 1 pack would do.

Not to mention we are fiercely proud amongst our communities and would have an east coast, west coast, northern, and French pack at the very least if it were to be realistic. In real life each province is fiercely proud and very much independent in identity from one another. It disgusts me that the alpha for all of Canada is quite clearly supposed to be French with a name I've never even heard of, Etienne, I couldn't even tell you if that's male or female. 59465213565.pdf The stereotype is insulting and infuriating. In my mind, I age down the male lead since he already behaves like a frat boy. He's supposed to be 29 and she's supposed to be 19; however both behave like 17-yr-olds.If you're into a light read and just in the mood to read something not too complex, this is a good pick. Sometimes you get into the mood of reading something very fluffy the requires no depth.Biggest complaint is the fact that this is on Galatea. Waiting is a pain. I'll be honest; I pirated it so I could finish it. I have Unlimited Kindle and I would have totally read this book had it been offered on KU. Heck, it if was offered for \$.99 or even \$1.99, I would have paid for it. It's not worth signing up to Galatea. I've read so many complaints about the app once you go Unlimited. This would recommend not paying for it on Galatea—it's not worth. Just Google the story and read the pirate version.Author would benefit in getting the entire stories up on KU.February 26, 2023DNF @ Book 3 (Galatea)Tl;dr Don't use Galatea. Ever.I've never been so inclined to actually leave a review as much as this series. Maybe because I paid an obscene amount for it. - Character development is horribly poor. - Marketed as "Hot and Steamy". It's lacking a lot to be classed that IMO. It's warm and moist at best. - Chapters get less immersive as you get further into books.- The dialogue has to be the worst. Too stacked.The first book was enough to be 3 star at best. I also got tricked (maybe I'm just stupid) by the way Galatea bills and now I've paid for a whole year for this TRASH series. I read 2.25 of the books and couldn't continue. The writing is terrible, they leave out huge chunks and also get things wrong. Ex: book 1 make a big deal of how FMC's eyes are blue, then in book 2 refer to them as a brilliant green, and a chapter later talk about her crystal blue eyes again.... Very cheesy, teenesk novel. The main character came across childish.Readable for a chuckle but not enough to buy chapters off Galatea,January 25, 2023Needs heavy editing. May 13, 2023I hate the app this book is on. It's way over priced for the quality of reading if this is what is available to read on it. I'm also calling it just a book, because even though it says there are seven it really equates to only one with the tiny "chapters". The author losses their train of thought with the characters and contradicts themselves in the story I've noticed in just book "one". The plot is all over the place and really it could be less jumpy and have a way better story line. So in a sense this seemed like a summarized rough draft so to speak. [lowes.survey.canada](#) I was interested based off a Facebook ad that equated it to Fifty Shades of Grey and it is far from that in so many aspects. This doesn't even remotely equate to that series or level of writing. I won't be purchasing or continuing to read after finishing the deemed "first" book. March 31, 2022Sienna is as everyone says and I'm afraid you never quite get to the point where you like her completely but by book 7 you've gone on that much of a journey with her that she becomes tolerable and believe me, other characters become much more irritating. Sienna and Adiens love story was captivating even though I often felt pity for Adien as his mate was for the most part all over the place. I enjoyed the storyline, to me it was thrilling with plenty of wtf moments. Overall I was entertained. I would have scored higher if it weren't for the painful app this series is streamed on and.... book 8! I'm not sure how the author went so left field on that ending but shesh, I was left thinking "Wait, really? That's weird".April 12, 2023I was excited at first... BUT OH WHAT A GIANT DISAPPOINTMENT!!!! The MC is stupid, naive, entitled, self centered, gullible, unconcerned, weak, and so many others. Completely un-relatable. And the desperate attempt to get this book to be relevant by try to bring a wolf version of "The Real Wives" was stupid and laughable. DID NOT WORK!! And it is sad and a shame because this book had good bones too bad the author did not develop it properly. I stopped reading after the 8th chapter on book 4 (that is after pausing for several days in different chapters throughout book 3) Should have quit while I was ahead. The male MC deserved SO MUCH BETTER!!September 4, 2022I just stopped. I couldn't do it anyone. First book not bad. However, the juvenile thought process the back-and-forth indecision with no point to any of the outcomes. Seems like it's leading up to something but leads to nothing. [giovigilalan.pdf](#) Mentioning characters that don't show up until the next book. But, bring in a new characters to make it seem more interesting which will drag out to another book. Oh and the app having to wait 6 hours to read the next chapter with the book not meeting up to expectations not worth it. [90571529636.pdf](#) January 18, 2023I think having to pay for each chapter sucks no matter if the book is good or not.Reading a book this way can cost you 100s of dollars for what isn't that well written.Our heroine is childish, and selfish, got to do everything my way or she will destroy everyone around me just because can't seem to grow up.She destroyed his entire world, the pack's world.I won't be reading any more of this through this medium. February 26, 2023Read up to book 3Might go back at a later time... This was cute and the story itself is good, in my opinion. I felt the plot was a bit confusing at times... as though the author had a bunch of ideas and just shoved them all together instead of pacing themselves.The moment this seemed to turn into a love triangle I stopped... plus it started to feel like I'm missing too much information © Trigger/ content warnings-- Attempted r@pe- Trauma due to friend SA and following unaliving.March 7, 2022OMGosh, OMGosh, OMGosh!!!! Each and every page... ©©©I thoroughly enjoyed this novel from the first page until the very last. It has been a very rare occurrence that I could just pick up a book and read it in one day; but, I was captivated by these characters and their amazing love story instantaneously.October 7, 2022I finished the entire series. This was my first fantasy type novel I've read involving werewolves and such. The story does get better and becomes more interesting and complex. It changes pace and topic as it moves along. [jamey.aehersold.vol.3.pdf](#)

I couldn't put down the last book in the series until I was finished. [english.entrance.exam.questions.and.answers](#) This story took me through an emotional rollercoaster. The bittersweet ending had me in tears. May 5, 2022Honestly, by the end of the 8 books I felt like it was a solid read. There are parts where the characters are flat and juvenile, but the story idea makes up for it to me.A bit more sex than I like, but overall an interesting concept and unique story that I enjoyed.January 29, 2023Didn't get to finish because Galtea wanted \$70.00, the main female Sienna acts like a spoiled brat who doesn't think of anyone but herself. The alpha is her hubby who has to run after all the time, a lot of bitchness in this book also.April 21, 2023The book itself is fine but it's not worth the MONEY to read it. Better books exist on Amazon Kindle that you can read for less than the amount of money and time you have to waste just to read the book. May 3, 2022July 4, 2022I enjoyed this super natural series about werewolves, deities and vampyres. All eight books!
