RE: Air Filtration Systems_AutoClean Kitchen Exhaust Systems

To Whom It May Concern:

First, I'd like to say that Fred did not ask me for any recommendation – I offered because in this business it's hard to find genuinely good people to work with that create such a good experience with their product and services...consistently.

Over the past few years I have had the pleasure of working with Fred on numerous projects where a PCU has been required. Based on my experience with other PCU brands and reps, the AutoClean unit has been the go-to PCU because of its compact size, performance, and most of all, customer support.

In addition, our facility team, now over the years, has had zero complaints on the operation and maintenance of the units – I highly recommend this system and the unsurpassed support provided by Fred and his team.

Sincerely,

Curtis White
