

100

A blank 4x4 grid with dashed horizontal lines. The grid is composed of four columns and four rows. The first row is empty. The second row contains the number 1 in the first column, 2 in the second column, 3 in the third column, and 4 in the fourth column. The third row contains the number 5 in the first column, 6 in the second column, 7 in the third column, and 8 in the fourth column. The fourth row contains the number 9 in the first column, 10 in the second column, 11 in the third column, and 12 in the fourth column. The grid is used for students to write their answers to the problems.
