

## **Butterfly Tech. Launches new features to increase the efficiency of online-accessible solution**

*Startup to introduce innovative online services, providing newcomers with customized support on-demand while they self-isolate at home.*

**VANCOUVER, British Columbia - Aug. 14, 2020 - [PRLog](#)** -- "Anyone returning or entering Canada from abroad has to self-quarantine at home." This mandatory action under the Quarantine Act took effect back in April 2020 but continues raising a lot of questions from Canadian citizens, especially, newcomers. We, at Butterfly Technologies, empathize with traveling challenges faced by newcomers and are thrilled to provide them with the most efficient and modern tools to ensure the comfort of our customers.

Stopping at the grocery store, doing chores outside, or going to a friend's place on the way back from the Port of Entry and home is strictly prohibited. Breaching the self-isolating rule will bring certain consequences for travelers, such as facing fines or jail time.

Butterfly Technologies provides informational and technological support, listing the best expertise provides and services in Canada, making your visit stress free and improve the logistics of daily tasks.

**About BUTTERFLY Technologies Inc.:** BUTTERFLY Technologies (<https://butterflytechsolutions.com/>) is a Vancouver based application development company, offering a unique business pro-matching platform for out-of- Canada clientele to get access to verifiable high-quality affordable experts in various areas of business expertise for successful and effective settlement in Canada. It is one of a kind matching opportunity for concerned clients to find and connect with the best business service providers in Canada.
