Graduation Rate

Four-year, five-year, or six-year graduation rate (or annual dropout rate if no graduation rate)

Domain Score

For elementary and middle schools, the Student Achievement domain score is based solely on the STAAR component. For districts and high schools, the three components are weighted 40%-40%-20%, respectively.

School Progress

All Students

Part A: Academic Growth

Credit awarded for students who improve performance year over year as measured by STAAR progress measures and performance levels on STAAR reading and mathematics.

Part B: Relative Performance

Credit awarded based on performance relative to similar districts or campuses.

Domain Score

The School Progress domain score is the better of Part A: Academic Growth or Part B: Relative Performance.

Closing the Gaps

All Students and Disaggregated Student Groups

Student performance disaggregated by the following:

- All students
- Race/ethnicity
- Economically disadvantaged status
- Current special education
- Former special education
- Current and monitored English learners
- Continuously enrolled
- Non-continuously enrolled

Components

- Academic Achievement
- Federal Graduation or Growth Status
- English Language Proficiency
- School Quality or Student Success

Domain Score

Credit is awarded based on weighted performance of student groups against annual targets.

The Closing the Gaps domain score is based on the four components weighted according to district or campus type.

Better of either **Student Achievement** or **School Progress** domain = **70%** of overall rating

30% of overall rating

Distinction designations are awarded to campuses in ELA/reading, mathematics, science, social studies, Academic Growth, and Closing the Gaps. Distinction designations are awarded to campuses and districts in Postsecondary Readiness. Districts and campuses must be rated A, B, C, or D overall to be eligible for distinctions.

*STAAR results from EL students in their first year in U.S. schools are excluded from accountability calculations. STAAR results from EL students in their second year in U.S. schools are included via the EL performance measure. STAAR Alternate 2 results are included without regard to number of years in U.S. schools. For more information, see the [2019 Accountability Manual](#).

Highlights of the 2019 Accountability System Ratings

In 2018, the state academic accountability system underwent an overhaul under House Bill (HB) 22 (85th Texas Legislature, Regular Session, 2017). HB 22 established three domains of indicators to evaluate the academic performance of districts, open-enrollment charter schools, and campuses: Student Achievement, School Progress, and Closing the Gaps. HB 22 requires the commissioner to assign districts and campuses a rating of *A*, *B*, *C*, *D*, or *F* for overall performance, as well as for performance in each domain.

Overview of the 2019 Accountability System

The overall design of the accountability system evaluates performance according to three domains:

Student Achievement evaluates performance across all subjects for all students, on both general and alternate assessments, College, Career, and Military Readiness (CCMR) indicators, and graduation rates.

School Progress measures district and campus outcomes in two areas: the number of students that grew at least one year academically (or are on track) as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages.

Closing the Gaps uses disaggregated data to demonstrate differentials among racial/ethnic groups, socioeconomic backgrounds and other factors. The indicators included in this domain, as well as the domain's construction, align the state accountability system with the federal Every Student Succeeds Act (ESSA).

The State of Texas

More than five million students were enrolled in Texas public schools in the 2018–19 school year, and they took nearly nine million STAAR assessments in reading, mathematics, writing, science, and social studies. Of all assessments taken, 78 percent met the Approaches Grade Level standard or above, 50 percent met the Meets Grade Level standard or above, and 24 percent met the Masters Grade Level standard. Of the 335,500 2018 annual graduates evaluated in accountability, 65 percent met the criteria for one or more College, Career, and Military Readiness indicators. Statewide, the 2018 4-year graduation rate for all students was 90.0 percent.

Districts (including Open-Enrollment Charter Schools)

Of the 1,201 districts in Texas, 301 (25.1%) earned an *A* overall rating, 677 (56.4%) earned a *B* overall rating, 154 (12.8%) earned a *C* overall rating, 43 (3.6%) earned a *D* overall rating, and 14 (1.2%) earned an *F* overall rating.
