GOOGLE AUTOSUGGEST

A Major Threat to Your Reputation

Google’s Auto Suggest feature might be convenient for online users, but it can also pose a very serious threat to your reputation, creating negative search suggestions that slander your name, damage your brand, and put a sizable dent in your bottom line.

The good news? Now you can fight back. With NetReputation’s powerful new AutoSuggest Repair solution, you can [attack those harmful AutoSuggestions](#) at the source, repairing search suggestions for your name and building a reputation that earns trust, improves online authority and attracts customers from across the web.

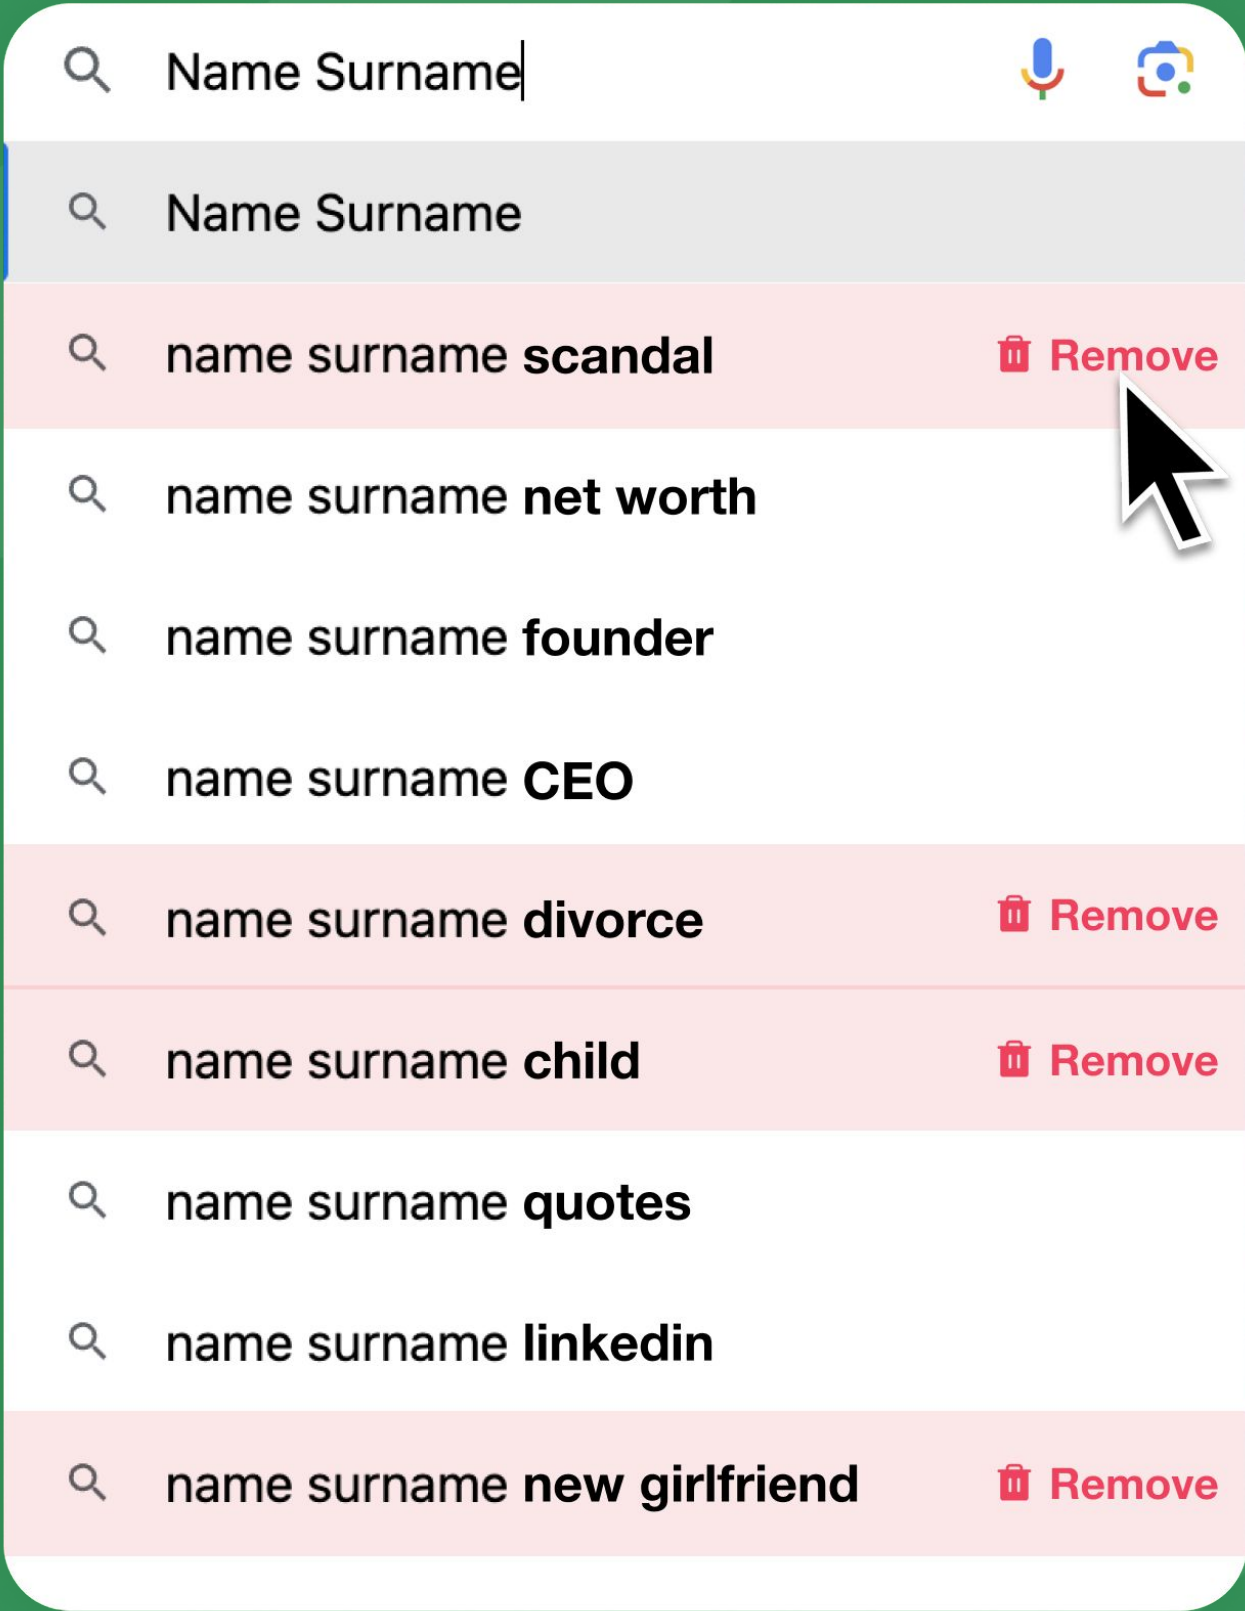

AUTOSUGGEST REPAIR

Removing Harmful Suggestions from Google

NetReputation AutoSuggest Repair involves a multi-layered approach that identifies and fixes negative search suggestions across the Google platform. We utilize the latest technology and methods to deliver a complete, long-lasting solution that puts you in the online driver's seat.

Autosuggest Repair removes negative suggestions on Google's 3 most popular search suggestion tools, including: Main or Homepage Search, Inside Search, and Related Searches.

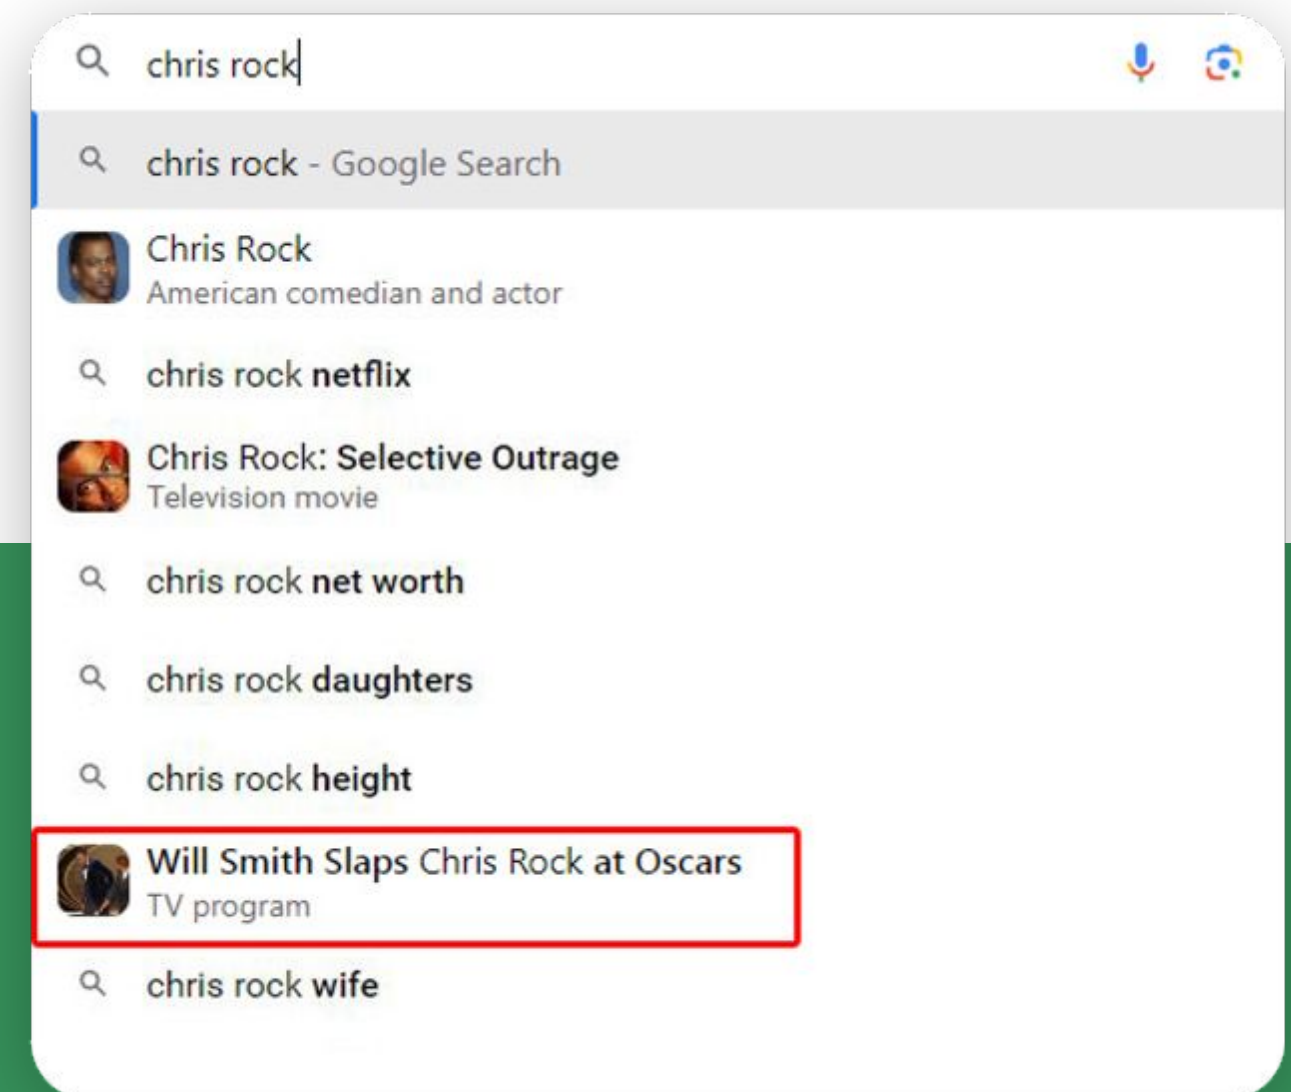

1. Main or Homepage Search Removal

Google's Main Page (aka Google Homepage) provides colleagues, customers, and loved ones automatic search suggestions every time they search your name on Google's main screen.

When those suggestions are negative, they not only look bad for your brand; they also take searchers to negative search results that spotlight unwanted items and do even more damage to your online presence.

Our cutting-edge AutoSuggest Repair solution takes aim at these high-visibility suggestions, working fast to target and remove negative phrases from homepage searches while making sure they disappear for good.

2. Inside Search Removal

Inside Search suggestions show up in the Google search bar after the user's first search attempt, popping up when a customer or loved one starts another search.

Any negative phrases listed during these searches can create big problems for your online image and draw unwanted attention to harmful links and articles hurting your credibility.

Once in place, our proven AutoSuggest Repair system goes to work fast, removing negative Inside Search suggestions while creating positive impressions across all follow-up searches of your name and brand online.

3. ‘People Also Search For’ Removal

Google’s ‘People Also Search For’, formally Related Searches feature offers an entire box of search suggestions during every search of your name.

When those suggestions are negative, they create yet another way to smear your name and draw users closer to unwanted items, including negative news articles, social media posts, and court documents that can destroy your online image.

Using the latest in AutoSuggest repair methods, our specialists move quickly to clean up Related Search suggestions and put your reputation back on track.

4. Search Suggestion Box Removal

Google's Search Suggestion Box was updated in May of 2023, right below the inside search bar. Historically these boxes defaulted to "News" "Images" and "Videos". Now they are tied to the negative suggestions found elsewhere.

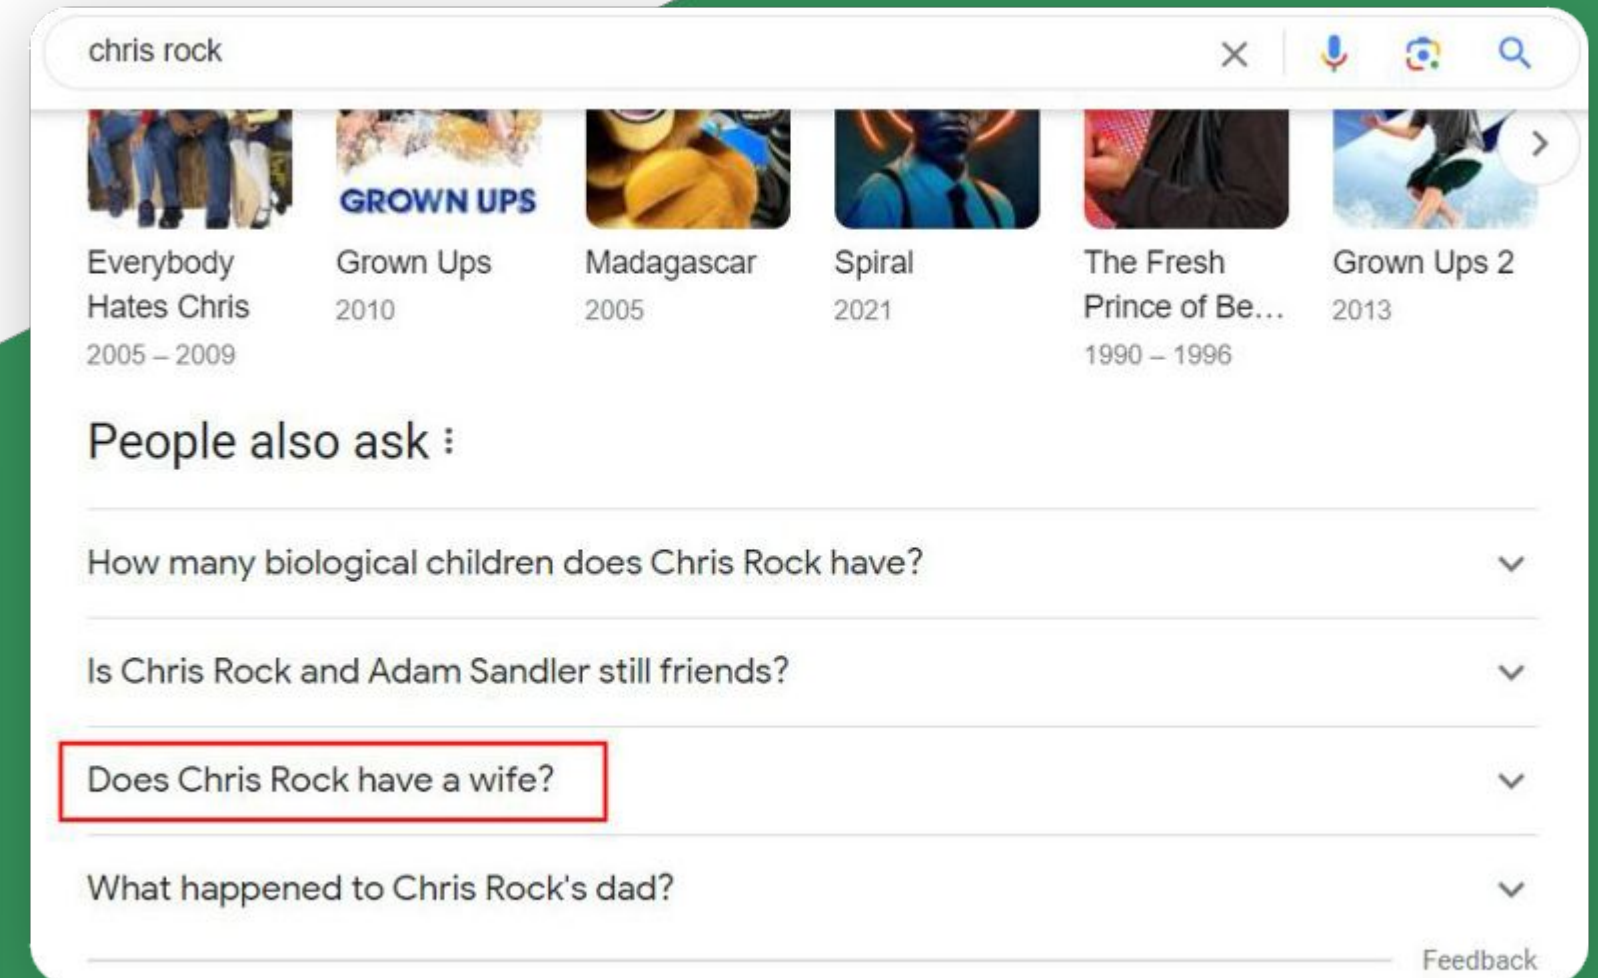

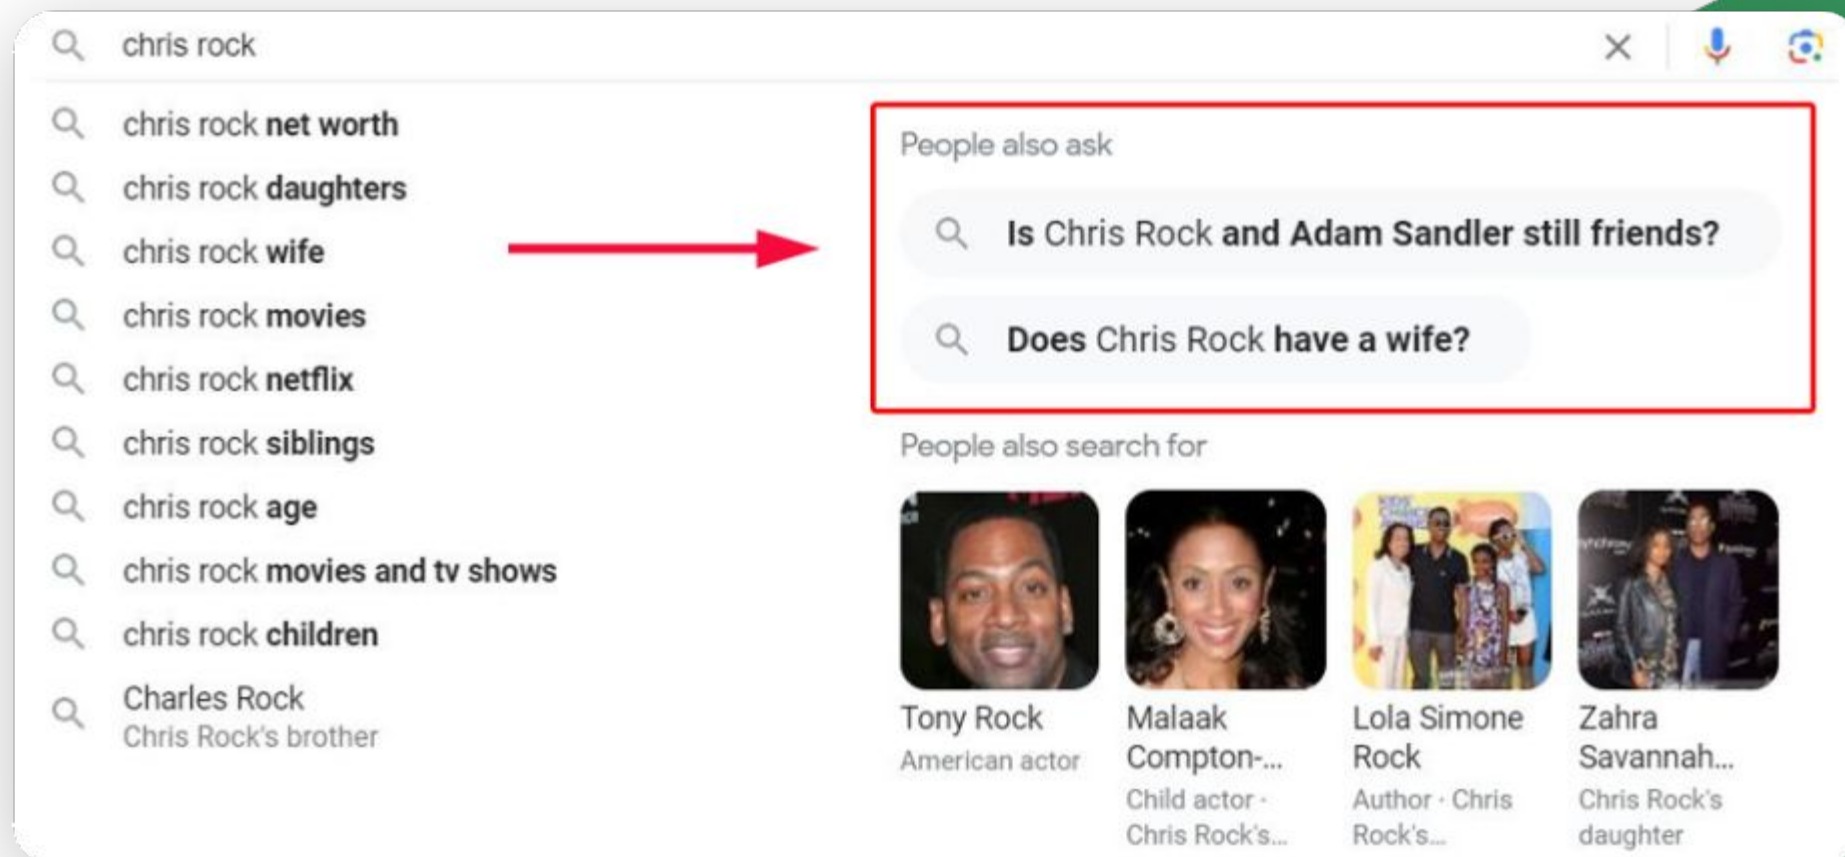

When those suggestions are negative, they create yet another way to smear your name and draw users closer to unwanted items, including negative news articles, social media posts, and court documents that can destroy your online image.

Using the latest in AutoSuggest repair methods, our specialists move quickly to clean up Related Search suggestions and put your reputation back on track.

5. 'People Also Ask' Removal

Google for a longtime displayed the "People Also Ask" box within the results pages for highly searched people and businesses. It also can appear to the right of the Inside Search as well as within the SERP. Historically this required a specific SEO package to attempt to replace a negative with a positive. Now it can be removed all together.

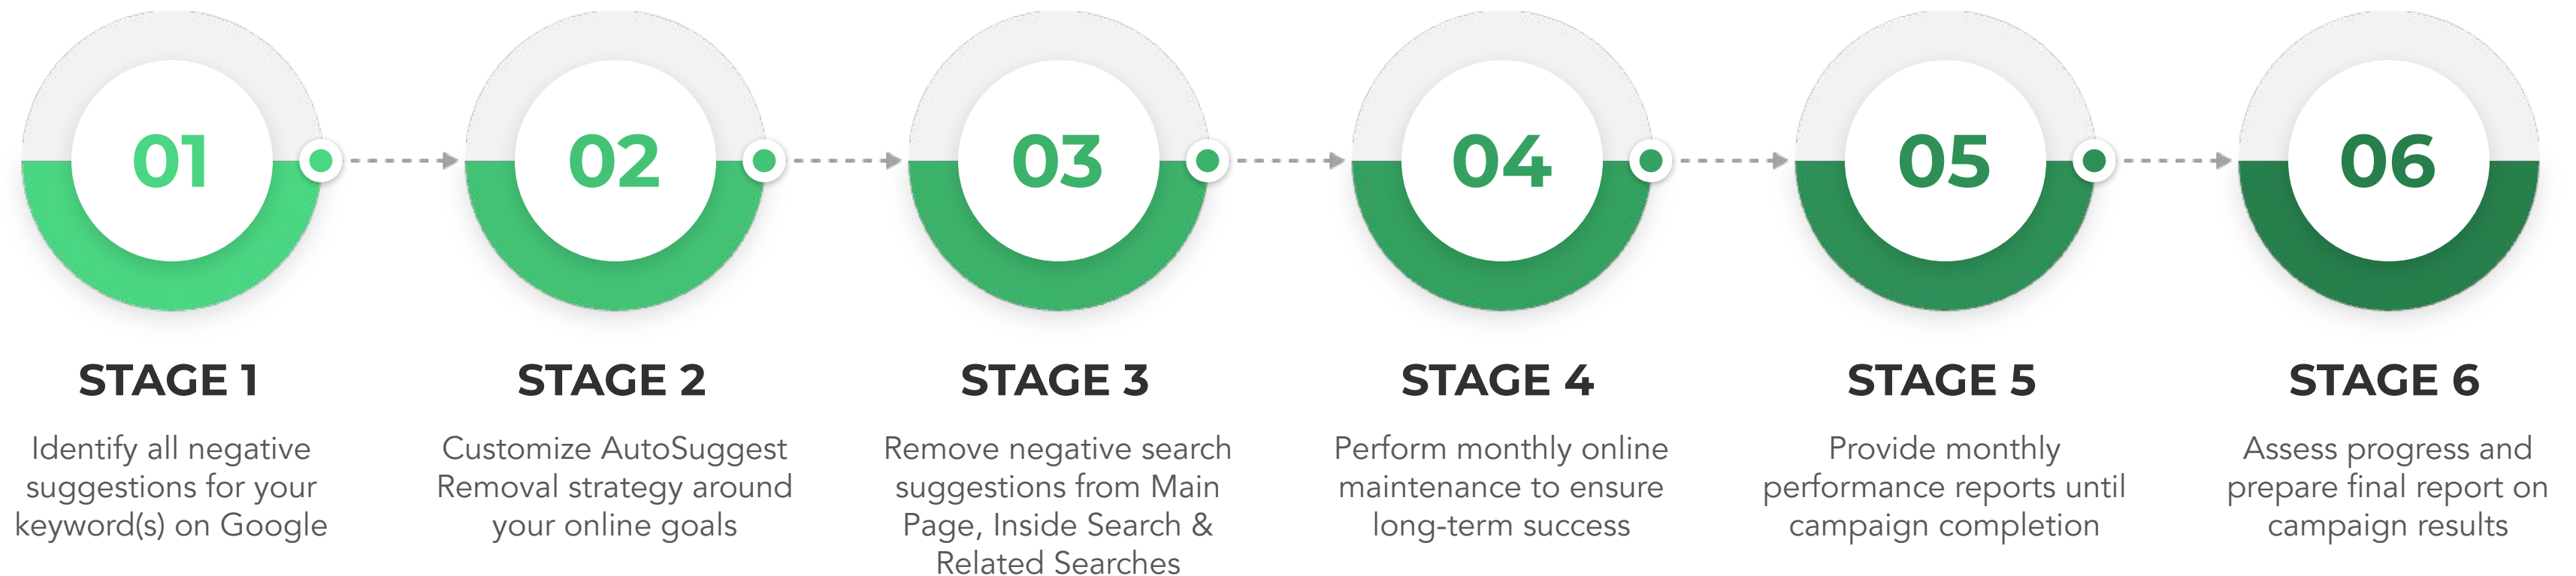

Our Analysis of your Terms and Suggestions

BEFORE

AutoSuggest Removal: Our Process

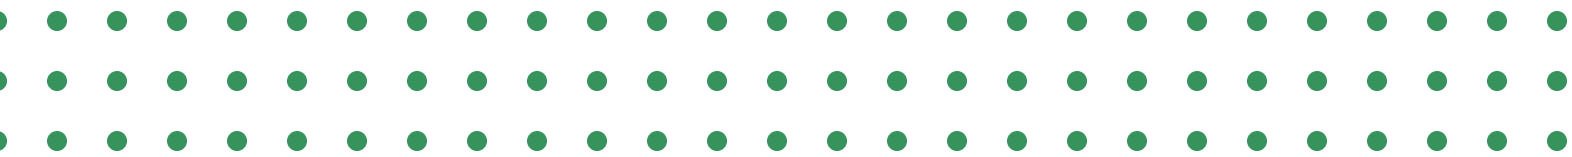

Our industry-leading AutoSuggest Repair team follows a step-by-step approach to remove negative suggestions and create the online search presence you deserve.

Your dedicated Account Manager works with you each step of the way to ensure the timely delivery, execution, and management of your AutoSuggest Removal Campaign

Other Search Engines

While Google does carry 92% of the market share, some clients have issues on other search engines. The difficulty and fees for a campaign will vary based on the specific algorithm used by the search engine. If desired, we can include this information in the estimate or address it once the results on Google are clearer.
