

GSE UNIQUE SELLING POINTS (USP's)

GSE focuses on the secondary level of education, students 13-17 years old, whose long-term goal is to attend university of their choice in the U.S. This is a university pathway program.

We place these students into private boarding and day high schools (host family accommodations) in grades 9 through 11, they graduate with a U.S. high school diploma and then go directly to the university of their choice.

This is a new concept for India however one that is catching on rapidly. We believe India is the next China with regard to secondary student study abroad in the U.S.

There is a huge demand from all our schools in the U.S. for Indian secondary students 13-17 years of age.

The numbers of potential students in this age group 13-17 in India are large. So, there is an unlimited potential for us - the problem is parents/families do not know this opportunity exists.

We are offering another way - a university pathway program where students attend a private high school, graduate with a U.S. high school diploma and then go onto the university of their choice.

We can accept applications and place students for grades 9, 10 and 11 - students ages 13, 14, 15, 16, 17 years of age – many private schools will not accept students in the 12th grade.

The schools and program offer students quite a lot:

- The program is a pathway, a springboard for students seeking to attend College/University in the U.S. Students graduate with a U.S. high school diploma. It is an educational as well as cultural program that provides several distinct advantages.

- It allows the students to become familiar with the American way of life, share their culture, and get immersed in the educational system.

- They are also able to take the SAT/ACT's here rather than abroad, and they can visit the colleges and universities they are interested in attending.

- In addition, they position themselves to be able to obtain any financial aid and or scholarships to attend college or university based on their academic excellence and or athletic prowess.

- Visit the universities they want to apply to.

Some benefits of studying abroad:

- * Improved cultural relations
- * Exciting locations
- * Earn a high school diploma
- * Problem solving abilities
- * Fosters maturity and independence
- * Sources of indigenous knowledge
- * Building lifelong global friendships
- * A better understanding of problems faced by various countries
- * Opportunity to attend university
- * Mutual trust and understanding
- * Provide a global perspective

Private High Schools in the U.S.,
