### **Individual Show – In Hand Classes**

- Ensure that the horse and rider can be fully seen in the video at all times.
- Please include a commentary somewhere in your video which details your horse's age and history. This should be before you start your individual show.
- The judge will expect you to show your veteran's condition and turnout with 360 degrees around your veteran and include the legs, tail and mane.
- Walk away from the camera and trot back towards the camera directly, the trot should then be maintained in a straight line heading straight past the camera and the trot should be maintained around the corner before slowly coming to a halt.
- Please do a close up of the tack, including the bit, and show no earrings are being worn, so this can be achieved by zooming in, as you need to remember distancing.
- (3 minutes max)
