## **Individual Show – Ridden Classes**

- Ensure that the horse and rider can be fully seen in the video at all times.
- Please include a commentary somewhere in your video which details your horse's age and history. This should be before you start your individual show.
- In your show you need to show the judges a 360° view of your horse/pony, being thorough to show the legs and turnout as well.
- Please do a close up of the tack, including the bit, and show no earrings are being worn, so this can be achieved by zooming in, as you need to remember distancing.
- Your video footage must only be a maximum of 5 minutes, once you have shown the full view of your horse you will need to do a short, ridden show.
- This is a set show and your judge will expect you to walk directly away in a straight line for five strides before moving into trot
- Ride a figure of eight in trot
- Then in canter with changes of leg through trot.
- Ensuring you have shown the judge all three movements on both reins
- Come slowly back to walk and halt with a salute.
- The video must be one continuous video, with no cuts/edits.
- Should the horse become excited or give reason for concern for your welfare, please dismount, do not put you or your filming partner in any danger. We all appreciate how strained the lockdown has been and do not want to remain in one or go back to one again.

- Please now be aware marks will be deducted for inappropriate turnout. We appreciate that many of you have been unable to visit your veteran through lockdown, so please do state this to the judge in your video. We also would appreciate the history of your horse/pony whilst you are giving your show, commentated by the person taking the video.
