

2023 Programme Overview & Costs

My expertise lies in supporting individuals and businesses who want to thrive in the film and television industry. However, if this is not you or you may be looking for coaching that is not career based or simply want to look for the support of a life coach then I also work with clients from various walks of life.

Intrigued as to what this might be like then don't hesitate and reach out to me for a complimentary discovery call where I can give you a coaching outline and share with you what it is like to have a life coach.

Why might you consider coaching?

Whilst our close friends and family might be held in the highest regard, it is not always the case that our inner circles are the best and sole source of life and career input.

Ask yourself, do you believe you are getting all the support you need to achieve what you want in life in a non-biased fashion?
