#### **GLOBAL FOOTPRINT**

Trax Management Services takes pride in our tremendous network of global suppliers, manufacturers and sourcing expertise. This footprint allows us to globally source medical products from around the world to fulfill surging demand. Our network of seasoned professionals enable us to align products and people in the time of need.

#### **GLOBAL LOGISTICS EXPERTISE**

For over 20 years, Trax Management Services has engaged in sourcing and logistics on behalf of governmental entities, multi-national conglomerates and Fortune 500 corporations. Along the way, Trax Management Services, has developed a highly-networked, sophisticated supply chain with multiple redundancies for every product. With expertise in pharmaceuticals, medical PPE, and a myriad of other inaccessible products, Trax Management Services is often the company to call when the need is urgent and supply acquisition is challenging. A federally-registered Service Disabled Veteran-Owned Small Business (SDVOSB), Trax and its team understand how to move product around the world efficiently and economically. This capability, along with our network and our low overhead model gives us an advantage over our competitors.

## TRAX MANAGEMENT SERVICES PERSONAL PROTECTIVE EQUIPMENT

Trax Management Services has responded to the coronavirus pandemic by doubling down on its decades-long relationships with PPE manufacturers across the globe. We worked with these manufacturers before the pandemic – and will work with them after it – which allows Trax to leverage its history and reputation with them to ensure that you get the PPE you need fast at a competitive price. Below is a partial list of our most requested PPE items. Please call for a price quote and delivery window.
