

Xenopus 1 is proud to be a worldwide supplier of *xenopus laevis* and *tropicalis* frogs, supporting sustainability, reproducibility, and a steady supply for the Model Organism Xenopus

We maintain advanced breeding facilities with over 150 static systems with security and redundancy insuring high quality control and keeping costs low

Husbandry protocols combined with Nasco for over 80 years experience
...ovary, oocyte, testes, eggs, tadpoles

Dedicated worldwide logistics

New for 2023 and beyond:

Offering a supporting role with the xenopus community for a growth, sustainability, and a Model Welfare initiative for the model system Xenopus

A comprehensive collaborative program:

Xenopus Model Welfare Organization www.xenopuswelfare.org

Scope-

-husbandry, transport, international rules, health certificates, pursue
- OIE species specific attention to frogs for research
- Comprehensive community standards of care

Sponsoring a regular hybrid-format seminar series that will give members of the community from all over the world a connection on a regular basis, proposing 20 of these events over the next 2 years

Sponsoring a xenopus book-researcher and lab profiles of all xenopus users worldwide

& continued support for the Cold Spring Harbor Xenopus Course, the Xenopus 1 Cold Spring Harbor Photo Competition, the Embryology course at MBL, & Bioinformatics Course & PI Meeting
