

Baloo Plumbing

ENVIRONMENTAL POLICY

At Baloo Plumbing we are committed to protecting the local and global environment of the earth and is continually seeking to implement innovative measures to improve environmental outcomes for the community.

To prevent, minimise and control significant environmental impacts concerning our activities, products and services we shall:

- Establish and maintain an Environmental Management System in accordance with ISO 14001:2015.
- Continually improving our environmental management system to enhance environmental performance.
- Utilise our environmental management systems in daily business operations
- Measure and report our environmental performance through key business metrics.
- Commitment to the protection of the environment, including minimizing of pollution and prevention of pollution.
- Adopt the highest environmental standards in all areas of operation, meeting and exceeding all relevant legislative requirements.
- Assess our organisational activities and identify areas where we can minimise impacts.
- Minimise waste through careful and efficient use of all materials and energy.
- Purchase sustainable products wherever feasible [e.g. recycled, FSC or low environmental impact products and energy from renewable sources].
- Educating our staff, contractors and customers on environmental issues, encouraging behaviour's that deliver improved environmental outcomes.
- Complying with all regulatory obligations and contribute to the development of public policy and regulation, while driving innovation to provide improved customer and community outcomes.
- Reduce risks from environmental, health or safety hazards for employees and others in the vicinity of our operations.

- Aim to include environmental and ethical considerations in investment decisions where appropriate.
- Prevent pollution, reduce waste and minimise the consumption of resources.
- Valuing, protecting, maintaining and enhancing natural (e.g. threatened species, waterways), cultural and heritage assets within our operating area.
- Assist in developing solutions to environmental problems.
- Continually assess the environmental impact of all our operations.
