

Community Cats "Colony Cats 911" was created to address the medical needs associated with the care of feral cats, excluding the cost of sterilization surgery. This assistance includes, but is not limited to, the cost of vaccines, flea prevention, parasite control and antibiotics.

Caregivers must meet the following criteria:

- + Located in Lake or Ashtabula County.
- + Demonstrate financial need, or:
- + Caring for a large colony, or:
- + Designated caregiver for a multi-family dwelling, like an apartment complex or a mobile home park.
- + Be in compliance with all city ordinances with respect to feeding feral cats.
- + All cats must be spayed/neutered or in the process of doing so.
