

## Laura's Fund for Wayward Cats

Created in memory of one of our caregivers and supporters, Laura Colon, Laura's Fund for Wayward Cats prepares stray and abandoned cats in Lake and Ashtabula Counties for adoption.

Laura managed the colonies in the mobile home park where she lived and served as park manager. Many of the cats at the park, as is often the case, are not feral but displaced or "wayward" cats. These cats need to be spayed or neutered, tested for feline diseases, vaccinated, and microchipped, prior to being placed for adoption. Sometimes these cats are sick or injured.

This fund is designed to make sure these cats are ready for their next chapter in life.
