What to expect:

Thank you for completing this application – it is the first step. Most adoptions do not happen the same day you complete your application. You will be notified if you are approved or denied within a few days.

Our goal is to adopt our kitties into loving, healthy furrever homes. This is why your application will be reviewed in detail and your references and vet records checked.

If approved, your cat/kitten may not be ready to take home right away. Our cats are spayed or neutered, receive appropriate vaccines, and get flea and worm preventative. They are also tested for FIV and FeLV, as well as being microchipped. We want you to adopt a healthy pet and ask that you allow us the time to complete this process.

We appreciate your understanding as we work together to make this happen!

For updates about your application please call Judy at 216.299.4878
