### OVERVIEW

The BODE 29 project also known as BODE Tacoma Dome is located in the epicenter of Tacoma. This project was underway when we were brought in to help complete the ERRCS DAS system.

### DESIGN

BOLD completed the DAS design.

### CONSTRUCTION

BOLD worked with our trusted DAS subcontractors to make sure that the DAS installation of completed.

### CHALLENGES & ACHIEVEMENTS

Because BOLD was brought in after the project was already underway, our team had to quickly get up to speed. We conducted multiple site walks to thoroughly assess the existing progress, identify gaps, and ensure that every detail was aligned before moving forward.
