V. Old Business

- a) The Ion 2m Repeater Project vs. New Equipment. Discussed the location of the Ion 2m Repeater project. Funds may be available through Merkel, a local establishment. With the continued work on the Ion 2m repeater and the possible funding. We will table this project as ongoing.
- b) **70cm GMRS repeater** at David Guinee's house. The antenna is not going to work. Further discussion for use is to be determined.
- c) **Trip up to Cooks repeater** to be discussed at Audrey's breakfast.

VI. New Business

- a) Will Welker's residence may be a location for old 2m gear (equipment) from the Ion project?
- b) When checking in for nets, "early check-ins are welcome."
- a) Jack Davis has a contact in central Washington for anyone looking for used towers.
- b) The club will look to incorporate a maintenance schedule, equipment needs, and documentation of activities. Three log books are suggested for record-keeping; Date/Time, Technical, and Inventory.
- c) Suggestion to prioritize our spending by importance, maybe put together a "pecking order" of our club's radio equipment needs for managing our resources.

d) 2m Repeater Old Gear (equipment) relocation
