

Crop List-2024

This is a list of the crops for 2024. In the Description column there will be information about storage, uses, cleaning, flavours, etcetera.

Crops are very dependent on the weather. Therefore, the first crops are planned to be harvested mid-late June. The last crops tend to be harvested in the first week of November.

There will be more details added soon.

Last updated December 2023. Next Update January 2024.

Crops	Description
<input type="checkbox"/> Arugula	<ul style="list-style-type: none">• A cool season crop.• Peppery, tart and slightly bitter flavour (becomes more bitter with warmer weather)• Ideally used in salads, sandwiches, sauces• Rinse with cool water to clean• Refrigerate for storage
