

# Free Retention Service for Your Diabetes Clients

ADS offers personalized retention services to support your clients with diabetes, helping to grow your business.

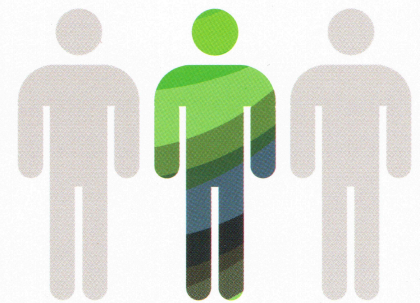

## How to Refer

- 1 Ask all of your clients with diabetes if they would like to have ADS take care of setting up home delivery of their diabetes supplies. (*See Pro Tip*)
- 2 After sending ADS your client's contact information we will call them, *mentioning you by name*, and handle the following for them:
  - Prescriptions
  - Prior authorizations (*if needed*)
  - Billing for supplies
  - Free shipping to their home

**That's it!** There is no paperwork for your clients. We verify their insurance and get a prescription from their doctor. This value-added benefit comes at **no extra cost to you or your clients.**

Scan this QR code to find the AE that supports your area.

**Nearly 1 in 3 Medicare beneficiaries have diabetes.**

### Pro tip:

Ask all your clients "Do you check your blood sugar at home?" to easily find who we can support for you!

**Better Service, Better Care.®**
