The home of high precision

Having spent the previous decade at the heart of the Jones & Shipman / Hardinge management team, Mike Duignan and Alan Fisher established DF Precision Machinery Ltd in 2020. The partners' founding objectives were to use their wealth of experience, related to precision grinding machine sales and applications, to benefit the UK grinding fraternity, also to provide the highest standards of customer care. Key industries now being served are the aerospace, F1, mould, tools & die, bearings and medical sectors, also precision subcontractors.

In addition to offering a range of highly efficient, cost effective grinding solutions and related support services to all potential UK customers, DF Precision Machinery is the official global supplier of Jones & Shipman spare parts and support services. The company holds the extensive J&S OEM records, drawings, and software and offers unrivalled expertise related to Jones & Shipman products.

Over several years, Hardinge has acquired many iconic, world renowned precision grinding brands, including, Kellenberger, Voumard, Hauser, Tschudin, USACH and Jones & Shipman. As exclusive representative in the UK and Ireland for all Hardinge grinding products, DF Precision Machinery boasts an impressive portfolio of solutions. Further complementing these products, the company is also the exclusive distributor of Okamoto grinding products in the UK. In addition to Okamoto's extensive range of surface and profile grinders the renowned manufacturer also offers internal, cylindrical, vertical, and rotary grinding products.

Explaining DF Precision Machinery's ethos, Mike Duignan says: "To ensure the delivery of highly efficient, reliable, precise grinding machines and solutions which provide an attractive ROI for our customers, we must use quality partners. The companies we represent are global leaders in their fields and have built strong reputations through their dedication and commitment to offering first-class products and support.

"We are committed to backing up our impressive product portfolio with first-class levels of service. In addition to providing expert advice related to all aspects of grinding, we are able to help potential customers to specify machines that enable their purchases to match their specific needs and budgets".

"Our Customer First philosophy ensures that all of our customers receive high-quality specialist support from initial sales discussions, through to the provision of long-term preventative and support services that optimise customers' return on investments."
