Overview of the company

Overview

- ACH has been providing a full range of services to public and private clients in Lebanon and has built a solid reputation through delivering complex projects and ensuring high quality performance
- ACH owns a steel factory, offering a complete line of scaffolding formwork and construction tools to the Lebanese and MENA clients. ACH is committed to providing the best products to customers, while competing on price offering and service delivery. Whether for rental or purchase purposes, ACH will tailor the production of construction tools upon the clients' specifications and will offer required safety training to both client employees and contractors
- With the aim of satisfying the needs of its customers, ACH has been dedicated to providing a uniquely experienced team with technical and management knowledge and operating in a safe environment at all times
