

PROTECT YOUR INVESTMENT WITH CONFIDENCE

Premature rust is inevitable when your new or pre owned RV, Trailer or any piece of machinery that includes metal is not properly protected. MARINExPRO protects against rust for up to 5 years. Regardless of exposure to any climate. Keep your investment protected and looking new for years to come.

MARINExPRO can be applied before or after rust begins to show. MARINExPRO stops rust from spreading and keeps your investment protected from future rust and provides peace of mind that rust will not be an eyesore.

PROTECTIVE SOLUTIONS REIMAGINED

Protect your investment and keep it looking as sharp as when you first purchased. Paint to match your trailer, boat and personal watercraft. Eliminate the fading and rust that is inevitable.

**PROTECTS AGAINST RUST
FOR UP TO 5 YEARS**

WATER-BASED CORROSION INHIBITOR

Environmentally Friendly

MARINExPRO is non-toxic, non-flammable, VOC-compliant product with no heavy metals.

Easy Application

MARINExPRO has fall technology to eliminate mess.

Revolutionary

If rusting has already occurred on a surface, clean the surface with our Prep solution (ph is less than 10 so can be used anywhere and poured down any drain) and then use an airless sprayer to spray on MARINExPRO. Our product will cover and lock out any rust. You do not need to grind or wire wheel the metal. Just remove any flaky rust with a wire brush or power washer.

Reliable

MARINExPRO has passed the rigorous SAE (Society of Automotive Engineers) J2721 Cyclic Corrosion test for durability and adhesion in extreme salt conditions.

Resilient

If a rock chip occurs, MARINExPRO can be used to touch up the damage, and rust will not come through.
