JULY BOARD MEETING

Our July Board meeting will be next Tuesday at Camp Wilkes.

ZOOM BROADCAST

Due to the lack of demand due to the easing of COVID restrictions we are only going to broadcast our meeting if someone requests. Please let Greg Crapo know if you need this service not later than the Tuesday before the meeting.

USA/CANADA FORUM

The Nehligs and a few other club members are leaving on 7 September for Des Moines, Iowa to attend the Forum which starts on 9 September.

RAFFEL TICKETS

There is a car show at Beauvoir this Saturday. They will allow us to set up and sell our raffle tickets there.

GUEST SPEAKER

Meredith Horn
VP Guest Experience and Education
MS Aquarium

Meredith Horn oversees the vision and strategic direction of education and guest experience for Mississippi Aquarium. Meredith currently serves on the Board for the Mississippi Environmental Educator's Alliance. She is actively involved with the Alliance of Marine Mammal Parks & Aquariums. Her role currently includes serving as chair of AMMPA's website sub-committee, and is a member of the Communications committee and Education committee. Meredith recently traveled to Washington, DC, on behalf of Mississippi Aquarium, to present for a vote for AMMPA membership. In the last decade, Meredith has directly managed over 600 volunteers, and has training experience with beluga whales, pacific white-sided dolphins, bottlenose dolphins, sea lions and seals. In her last position, as Director of Communications & Marketing, her leadership resulted in consecutive record-breaking years for a 65-year-old aquarium. Mississippi Aquarium has been an incredible journey thus far, and she looks forward to continued success for the Aquarium, the coast and the state.

Meetings are noon every Wednesday at the Maritime and Seafood History Museum

Ms. Horn told us that the Mississippi Aquarium managed as well as can be expected throughout COVID. With the lockdowns ending, they are very happy to welcome the visitors back again! Besides visiting the aquarium individually or as a family, they also offer field trips, summer camps virtual learning, and many other activities (educational and/or fun) to let the population enjoy all they have to offer.
