### **LCIF Disaster Grants**

Carl Nehlig told us that District 30-S is putting in a request for an LCIF Disaster Grant of \$10,000. The District is looking for ideas on how to best put this grant to work. If granted, and if we manage to spend this grant in 30 days, then we would also be eligible for another grant of \$20,000.

### **Camp Wilkes**

Camp Wilkes suffered some damage from Hurricane Ida and is in need of an electric saw pole so they can clear some of the damage limbs from their trees. Jerry Dodge believes he has one they can borrow.

### **USA/Canada Forum**

This is occurring next week! We wish a safe trip for those members from our club that are driving to attend it.

### **Change-for-Change**

This is a very simple way to raise funds for eye sight. You can do it at home, at work, or both!

### **Avery McKinley**

Judy Gavin is circulating a list of people who would like to make a personal donation of \$25 which can be billed to your club account. Funds raised will go to the Lions Sight Foundation.

### **Scooter Raffle**

Gerald Gardner told us that raffle ticket sales are going well. We should not get complacent, though. Please see him if you need more tickets to sell.

### **Dessert Sign-up Sheet**

We are in need of people to sign-up to bring dessert for September! As good as our meals are, there is always room for some dessert afterwards!

### **Guest Speaker**

We had no guest speaker today. We greatly enjoyed having lunch and visiting with everyone, though.

*Meetings are noon every Wednesday at the Maritime and Seafood History Museum*
