Guest Speaker

Our guest speaker was Carol Burnett, Executive Director of the Moore Community House was able to join us today via Zoom. The Moore Community House, a mission agency of the United Methodist Women, has served the families of East Biloxi since 1924. They originally served the children of the seafood workers in this area as well as the many children who worked in the seafood factories before the creation of child labor laws. Now, more than 90 years later, the Moore Community House continues to serve the families of the Mississippi Gulf Coast by providing early childhood education and workforce training for women in the construction and advanced manufacturing fields.

Meetings are noon every Wednesday at the Maritime and Seafood History Museum
