Exosomes, Stem Cell Therapy for Orthopedic Injuries, Anti-Aging, and Degenerative Diseases

Dr. Lawrence Bougeois, Chiropractic Physician at GenNex Healthcare LLC, provided a very informative slide show presentation explaining the benefits of healthy stem cells, exosomes, and how they can be used in pain management.

After evaluating the extent of a patient's pain complaint, they may use of the minimally invasive procedure exosome therapy. Studies have shown the therapy can help alleviate, or totally eliminate, pain associated with orthopedic injuries, anti-aging or degenerative diseases. The exosomes have shown anti-inflammatory potential to reduce inflammation in conditions leading to a faster healing response.

The local clinic, GenNex Healthcare LLC, is located in Gulfport. GenNex Healthcare's purpose is to help as many people as possible

- Get out of pain
- Regain their health
- Live healthy for the rest of their life

The Heart of a Lion!

Many of our members will remember Lions Lenny and Wilma Fishman and their daughter, Cheryl. While not a Lion herself, Cheryl grew up learning about what it means to be a Lion. Today Cheryl continues her parents legacy by supporting the Biloxi Lions Club, including with helping in the collection eyeglasses.

Prior to the COVID19 shutdown in March, Cheryl had collected numerous large bags of eyeglasses. In July, when the club started meeting again, Cheryl delivered 4 large bags of eyeglasses to Lion Penny, who in-turned delivered them to Lion Glenn our eyeglasses guru. Lion Penny was recently informed by Lion Glenn that he counted well over 800 pair of usable eyeglasses in those 4 bags!!!

A BIG Biloxi Club thank you **Cheryl** for collecting over **800** pairs of eyeglasses!
