#	RESPONSES	DATE
1	BUILD THE BYPASS	4/5/2018 4:13 PM
2	Taxation: Education needs to be #1 Increase taxes so there is no need for a levy!	4/5/2018 2:43 PM
3	Replace the current county commissioners with those who listen and put the people first	4/4/2018 11:00 PM
4	Market available commercial raw land to new companies	4/4/2018 3:47 PM
5	Broadband coverage - the reason it is not as large as it could be is because we are too rural to make money. If it was government run with the goal of breaking even perhaps it could be more widespread.	4/2/2018 9:48 AM
6	fix roads	3/29/2018 10:54 AM
7	Renewable energy provides more jobs than fossil fuels. Quit allowing companies to steal farmland for their dirty fracked gas	3/28/2018 8:53 AM
8	I would apply with the West Virginia department of transportation to add opequon creek and back creeks to the state's Water Trail system and also work with DOT to build a bike trail to connect between the C&O canal and WV 9 trail	3/25/2018 9:35 PM
9	Agriculture education will help raise our food security and at least as important, provide a lane for young people who are not necessarily college bound	3/24/2018 7:09 PM
10	First, you should fix your survey. As soon as I answered a question, previous and past #'s answered disappeared. Second, I absolutely would NOT approve or welcome any conversations about a bypass. It will improve nothing and it will kill the businesses in town that are the only things, in some cases, keeping the community growing.	3/23/2018 2:33 PM
11	Get creative with local agriculture, foods, etc. to improve economic outlook in MOCO.	3/23/2018 12:26 PM
12	Stop widening roads! It just induces more traffic and turns our rural counties into suburbia.	3/23/2018 9:44 AM
13	I would try to expand public utilities farther	3/22/2018 7:26 PM
14	Additional drug treatment centers	3/22/2018 4:16 PM
15	Morgan County is like a 3rd world tourist enclave. It lacks infrastructure needed for developmet, which would provide family sustaining incomes. 2 things need to be done: allow the County to tax with greater flexibility, and get more competent Commissioners all up for re-election at the same time with 4 year terms and a 2 year term limit.	3/19/2018 1:58 PM
16	n/a	3/19/2018 12:30 PM
17	Better support to expand airport and opportunities for businesses expansion at the airport	3/18/2018 7:46 AM
18	I believe we all need to support small local business. We need to be united.	3/17/2018 8:10 PM
19	airport- get a regional airline to connect to a major nearby airport	3/17/2018 7:50 PM
20	Utilities. Better HS Internet at competitive rates would make life easier for people trying to work from home and/or run a small business outside the towns in the area that have good broadband. Much of the countryside is saddled with Frontier DSL service, which is slow, spotty and they force the customer to purchase as a bundle along with wireline telephone service, whether the customer wishes that service or not. Industry standard broadband internet service would be welcome and business friendly.	3/15/2018 9:30 PM
21	Airport - expand the buffer zones and build a crosswind runway	3/15/2018 7:20 PM
22	Economic and facility development at Airport.	3/15/2018 2:08 PM
23	Provide drug treatment facilities. No one wants to live in a drug infested community.	3/15/2018 1:56 PM
24	Get Amazon air freight business	3/15/2018 12:56 PM
25	Attempt to attract commercial flights to the airport.	3/15/2018 12:13 PM
26	Housing Availability/Affordability- More programs need to be established to make housing affordable for low income families	3/15/2018 11:35 AM
27	I would dramatically increase the budget of the Airport Authority giving the capital and staff needed for air cargo development, takeover of FBO operations, land and property acquisition to protect the airport from incompatible land use/encroachment, improve the airfield facilities and maximize the airport business park for full utilization, business and job creation.	3/15/2018 11:09 AM
28	Water/Sewer Infrastructure need continued attention to ensure new business opportunities can be supported and residential built.	3/15/2018 9:18 AM
29	Improve infrastructure. Broadband and transportation	3/14/2018 7:56 PM
30	The roads in the area need serious attention. Traffic congestion is a serious problem, and with all the growth we're seeing, it's only going to get worse.	3/14/2018 2:43 PM
31	Lobby the state for more money to make road improvements	3/14/2018 2:42 PM

32	Opioid crisis	3/14/2018 12:53 PM
33	More needs to be done to attract highly qualified medical professionals to area	3/14/2018 7:29 AM
34	Lower property taxes on businesses. Low volume rural businesses are chocked with tax.	3/13/2018 8:30 PM
35	more affordable rental houses	3/13/2018 1:40 PM
36	We need better resources for drug users seeking recovery - waiting lists for inpatient treatment are weeks or even months long.	3/13/2018 11:51 AM
37	I see the whole tourism/jobs/economic development thing as one big issue. Too many older people in charge that have no current training about how things work on the internet. We need younger people trained to draw business into our area instead of the older folks trying to fight it and wishing it would go away. Social media is here to stay. It put a President in office that normally wouldn't of had a prayer. There needs to be more discussions about how to act cooperatively. Those who have ruled their roost are not open to new ways of doing things because they've always this way or they are our main hurdle. Everything to them is a threat.	3/13/2018 10:21 AM
38	I would impose a stiff fine or close a area landfill due to odors. I would also a plastic bag ban because of the litter	3/13/2018 8:07 AM
39	Find financing for affordable houding	3/13/2018 12:36 AM
40	Moratorium on all housing development building - we have enough housing ! We need to focus more on Agriculture, and infrastructure issues right now !	3/13/2018 12:11 AM
41	Agricultural Economy - I would subsidize any person or family that chooses to get the majoyty of their income from small scale farming or animal husbandry. I would use the empty lot where there had been a fire on Fairview to erect a semi-permanent tent to establish a year round farmer's Market with the promise that it would become a permanent building once it produced a profit. This will attract tourists, keep younger residents here and provide jobs.	3/12/2018 11:02 PM
42	Tourism	3/12/2018 10:21 PM
43	Start treating teachers better. Not allow there to be a landfill in Berkeley County	3/12/2018 10:20 PM
44	Jobs, Area needs more jobs and Better pay for those jobs	3/12/2018 9:57 PM
45	Environmental concerns	3/12/2018 9:03 PM
46	Not enough good paying jobs, due to lack of infrastructure, roads and not enough tax base	3/12/2018 3:55 PM
47	Jobs/Private Investment Attraction - This area isn't very attractive to potential businesses when there is litter lining every road. That isn't the image they want their customers to see when approaching their business.	3/12/2018 11:16 AM
48	Work on making insurance available and affordable for everyone. Healthcare, especially, preventive is so important.	3/12/2018 10:20 AM
49	Reduce the price of housing	3/12/2018 10:08 AM
50	Agricultural Economy- Consult with other rural areas who are successfully marketing their rural economies as agricultural tourism. Learn from their experiences.	3/12/2018 9:05 AM
51	Various local leaders seem out of touch with current trends, technology needs, growth trends.	3/12/2018 9:01 AM
52	Health/Poverty - Stop giving handouts and enabling poverty and drug use.	3/12/2018 8:27 AM
53	Support infrusture improvements and zoning to better utilize available land.	3/11/2018 7:31 AM
54	I'd increase business in Morgan County as a goal to increase population and alieviate the overgrowth on other counties	3/10/2018 4:19 PM
55	Offer extensive tax incentives to bring companies with good paying jobs to the area partnered with high education	3/10/2018 4:17 PM
56	New businesses for economic growth	3/10/2018 3:47 PM
57	Unity	3/10/2018 11:14 AM
58	Training and more Jobs for the area	3/10/2018 12:37 AM
59	Provide more resources for young professional to gain quality employment in the region	3/9/2018 5:38 PM
60	tourism	3/9/2018 5:14 PM
61	A workable Public Transportation System is essential for low income citizens to be able to locate and maintain employment. Having that in place, and then linking it to public transportation in Hagerstown and Winchester would make life even better for some of our lower income residents.	3/9/2018 5:07 PM
62	PROMOTE THE AIRPORT	3/9/2018 4:59 PM
63	Health and Drugs - Lets be a reason for recovery, have rehabilitation centers and work with people to overcome rather than leave in poverty	3/9/2018 4:51 PM
64	Focus on "quality-of-life" improving development and white-collar jobs	3/9/2018 4:50 PM
65	Attracting young workers to the region and entrepreneurs	3/9/2018 4:36 PM
66	economic leadership , promote Rural Work ethic	3/9/2018 4:28 PM
67	Drug prevention, treatment and rehabilitation. We need to find a way to break the cycle of generational drug dependency and poverty in our area. Do it through outreach, education, prevention and when necessary incarceration.	3/9/2018 4:19 PM
68	Improve broadband, have local drug rehab	3/9/2018 3:32 PM

69	Jobs	3/5/2018 10:48 AM
70	Need affordable workforce housing-find investors to assist.	3/3/2018 4:58 PM
71	Bring in more gas	3/3/2018 11:32 AM
72	Addiction treatment centers in every county	3/2/2018 8:17 PM
73	Poverty and drugs	3/2/2018 8:03 PM
74	Leadership- They would have made sure that Charleston was taking our tax money to divide equally amongst the 55 counties when we most likely pay the most taxes in this area.	3/2/2018 12:01 PM
75	Preserving and protecting our water sources should be a top priority as we need it to sustain life AND it is our town's big tourism draw! Who are we if our springs are tainted? I'm very disappointed by the approved silica mining expansion and worried about the pipeline.	3/2/2018 11:53 AM
76	We need to get the Drugs off the Streets, more needs to be done!	3/2/2018 11:47 AM
77	Area leadership should fight more for locality pay for teachers.	3/2/2018 11:34 AM
78	Numerous road issues, including expansions and improvements, are being addressed but are taking entirely too long. Most residents think the contractors hired to complete these improvements are being paid by the hour since it's taking so long. Suggest hiring reputable companies with stricter deadlines to meet.	3/2/2018 11:34 AM
79	Need reliable high speed Internet.	3/2/2018 11:12 AM
80	We have a great base for growth in our community as well as in the economic base right here in Morgan County. We are not tapping into that base. There are too many "sides" or "clicks" in this town. Everyone needs to come together and get the funding to market our area in the tourism area. The more we get noticed, the more businesses will come. That would provide revenue and improvement to our schools and our community.	3/2/2018 11:01 AM
81	Prevent monopoly of the electrical company; this is driving prices incredibly high	3/1/2018 4:58 PM
82	Create a business development hub that would support business growth and economic development, especially in downtown Martinsburg.	3/1/2018 4:48 PM
83	Everything starts with leadership. County and city council members need to express to state legislature that more money needs to be invested here in the panhandle. For instance, the state is pouring millions of dollars into the WV turnpike... Why? The money needs to be reinvested into the counties that are a bigger player in the state tax contributions. More money pays for infrastructure, deputies and state troopers patrolling the streets, stronger education (teachers and secondary ed). We have one of the most unutilized areas and that is the WV Regional Airport. Talk about growth, this here alone would be a key driver in economic development, of course along with other items. However, back to the key component, the leadership. Either our panhandle is treated differently compared to the rest of the state and invested into or we should be able to retain our panhandle money and invest ourselves.	3/1/2018 4:15 PM
84	Expand the airport to offer commercial services	3/1/2018 4:06 PM
85	Government Efficiency and Job Investment	3/1/2018 3:55 PM
86	Mandatory drug testing required to receive public assistance.	3/1/2018 3:26 PM
87	I would encourage growth in the local alcohol tourism trade	3/1/2018 3:24 PM
88	Morgan County - enhance tourism - could be our most valuable resource	2/28/2018 11:37 PM
89	Jobs/New Industry - There are virtually no high-skill jobs available that require higher education. The only opportunities are manufacturing/distribution. This is why most young, educated individuals leave this area. Attract and advertise to more diverse industry.	2/28/2018 10:32 AM
90	Research the agricultural & rural economic development successes of Loudoun and Washington Counties, work with agricultural interests to determine priorities for ag research and development, promote local agriculture.	2/27/2018 3:24 PM
91	We need to address addiction and mental health effectively with treatment centers, rehabs, therapists, psychiatrists. I am a foster parent and I always have to drive to Martinsburg and beyond for mental health care for children in my care, and the mental health care in Martinsburg is terrible too. East Ridge is a nightmare.	2/23/2018 1:26 PM
92	Residential and property prices	2/23/2018 11:47 AM
93	You left out education. Higher education and technical research companies need to be attracted to the area.	2/23/2018 10:48 AM
94	Focused tourism branding and marketing	2/23/2018 8:05 AM
95	Need high speed internet from more vendors. Right now, Comcast is the only semi-competent provider and Frontier sucks. Both jack up prices due to not having competitors and no one can do anything about it.	2/22/2018 9:09 PM
96	#12 only fund infrastructure and let the private sector fund beautification and social/historical projects.	2/22/2018 8:58 PM
97	Make the communities more walkable and connected	2/22/2018 8:25 PM
98	Better branding of our quality of life.	2/22/2018 8:08 PM
99	When the economy improves due to increased private investment all of the rest of our needs above will see benefit	2/22/2018 7:32 PM
100	Make it easier for new small businesses to begin	2/22/2018 5:41 PM

101	Agricultural needs to be supported by all government divisions! A large majority of farms were here from the beginning and they have supported our counties but yet they are not supported and promoted like they should be!	2/19/2018 4:46 PM
102	Revitalize downtown areas to make downtown a place to linger	2/19/2018 3:32 PM
103	Drug issue. Get it under control by making 1st offenses more strict. Make narcan recipients either pay a fine or do community service. Make them do mandatory counseling for 1 year.	2/19/2018 10:15 AM
104	Drug abuse must be addressed with interdiction, enforcement treatment and opportunities to return to rejoin families and employment.	2/17/2018 11:56 AM

32	Poorly planned and maintained road system creating traffic gridlock, county-wide problems with ugly blighted properties, no county comprehensive land use zoning, drugs and extreme poverty, poor educational outcomes for many with K-12 system, Local government is way underfunded and understaffed - lacks the comprehensive services needed to be a strong partner with capital investors of private industry. Taxes may be too low - not collecting nearly enough money to perform inherently governmental-functions. Lack of basic infrastructure like professional fire fighters, enough law enforcement officers, very little in the way of sidewalks, curbs, gutters, street lamps, fire hydrants or roads built with quality construction. "Anything goes" development patterns. Area is naturally beautiful but uncontrolled, unplanned growth is making this area "ugly". Upper income people will not want to live here. Its inclining them to pursue other areas. That's not a sustainable or desirable situation. Many workers commute out of the local area for jobs seeking competitive wages with other states. EP governments and employers must pay competitive wages with neighboring states. WV is losing its best and brightest in this way.	3/15/2018 11:09 AM

10	given that's most of the last 5 years we've had ZERO - doing anything would be an improvement. We in local food are in a great position to take the lead for our state in developing the DC and Baltimore markets, if we will work together to support our local farms and farmers. With the ARC and USDAs interest in supporting WV's efforts, and the current high interest in Appalachia - the time is right to leverage these assets. I'd love it if Economic Development were actually interested in what people want instead of working their own agenda. This survey is a good place to start. I'll be eagerly awaiting some follow through.	3/24/2018 7:09 PM
11	Morgan - development of "site pads" in the northern end of the county with access to natural gas and broadband.	3/23/2018 10:16 PM
12	I would like to see the 3 Counties work together with a variety of events that would bring people to the Eastern Panhandle. I would like to see better roads running from east to west. I don't believe there is much cross-selling of the counties that happen. It seems that the only thing that moves quickly and easily within the 3 counties is the drug trafficking.	3/23/2018 2:33 PM
13	CREATIVITY! We are NOT Berkeley County or Jefferson County. We are NOT Winchester, or even Hancock. We are unique, so DO NOT DESTROY IT by trying to turn MOCO into something it's not. CAPITALIZE ON ITS STRENGTHS, and minimize the weaknesses. Invite businesses that 'fit' here -- like high tech with no trucking involved. Focus on leapfrogging to BETTER in our OWN way, rather than trying to beat out everyone else in THEIR way. Use local talent who "get it," and understand the way things are changing in MOCO and in WV and have ideas on how to be ahead of the wave -- local foods, agriculture, education, alternative health, etc.	3/23/2018 12:26 PM
14	More strict punishments for drug users and dealers would hopefully bring down the addiction in the area and make it more favorable for business' to want to come to there area. Would like to see more help available to find funding for private companies wanting to bring better quality services to the area.	3/22/2018 7:26 PM

19	Want to see a amusement park built with rides and store fronts would like to see 50 to 100 new businesses open. Would like the park to also have woodworking, candle shops, locally made items to make us different and stand out. If I could get the local small businesses and the community to help show there support instead of feeling that it is hopeless. I want to promote tourism to increase the revunue in the state and in my community. To give our youth a reason for there education to mean something and have something to look forward to. Show them that any of them can make a difference and don't have to go down the same path.	3/17/2018 8:10 PM
20	I'd like to see a connection to a major airport for business and leisure trips.	3/17/2018 7:50 PM
21	Collaboration between Counties and municipalities for Economic Development. Networks for different industry sectors. Business support of schools.	3/17/2018 3:08 PM

22	I would like to see businesses that are being forced out of the northeast actively recruited for relocation here. An example of a missed opportunity would be a major firearms manufacturer that left Ithaca NY because of the adverse regulatory and political situation there. This manufacturing industry would have done very well in the Panhandle. Many industries are leaving the northeast and looking far away at Arizona, when they can have the same or better taxes, workforce and transportation assets here.	3/15/2018 9:30 PM

29	More development. Better infrastructure. Exploit current resources such as the airport.	3/15/2018 12:13 PM
30	Attract new businesses to the area, Having a qualified work force, improve infrastructure to provide safer access to the Eastern Panhandle	3/15/2018 11:35 AM
31	Capitalize on the strengths of the local area. Like to see continued growth in business parks in Berkeley and Jefferson county. Growth at the Eastern WV Regional Airport. Like to see the secondary road system to be given attention. Beyond the needs of I-81 - our intersections and secondary roads need attention. Martinsburg needs an east-side loop highway or bypass to improve traffic flow. Like to see the area west of I-81 between Exit 12 and 10 to grow into attractive communities with additional retail and entertainment options. Like to see downtown Martinsburg transform into an exciting place where people want to be. Stores, restaurants, festivals, events, place where families feel safe. Downtown needs an appearance grant system and to take deliberate action against blighted properties, expand historical districts, have measures to protect people if they invest downtown - protect from blight, squalor, crime, vagrants, etc. "Clean it up and make it attractive"	3/15/2018 11:09 AM
32	Improve infrastructure to attract new businesses. Support legislative changes to WV laws to help steer businesses to WV. Craft out "true" Public-Private partnership legislation that attracts private investor funding for other projects besides roads (currently just transportation and only design/build). Update legislation to protect a business' corporate shield (currently the business plus individuals and "all unnamed parties" can be named on a suit, unlike other neighboring states where only the business can be named).	3/15/2018 9:18 AM
33	Improve infrastructure - add Amtrak station; build broadband	3/14/2018 7:56 PM
34	Property taxes could be raised, because compared to other areas, they are very low here. However, those increased tax dollars should go toward paying higher salaries for teachers and other state employees, ie. law enforcement.	3/14/2018 2:43 PM
35	improve road network	3/14/2018 2:42 PM
36	Reduce the drug problem that drains our resources, provide educational opportunities to everyone willing and ready to learn-not based on race, income, etc..., have sentences for crimes appropriate to the crime committed. No more probation for people that hurt children. Long jail time for those that steal.	3/14/2018 12:53 PM
37	Expansion of small business opportunities and tourism	3/14/2018 7:29 AM
38	Nothing that increases spending or taxes	3/13/2018 8:30 PM
39	improved public transportation (MARC, Amtrak service on weekends), more open space/parks.	3/13/2018 1:40 PM
40	Morgan county needs a large employer.	3/13/2018 1:33 PM
41	Thriving small businesses and more educational opportunities	3/13/2018 11:51 AM
42	A push for ADA compliance	3/13/2018 10:21 AM
43	NONE	3/13/2018 8:07 AM
44	I would like to see more of an effort to enhance and improve tourism in this region.	3/13/2018 7:01 AM
45	More affordable housing. More jobs.. Education system return to much needed basics,discepline, respect, old math, spelling and cursive writing.	3/13/2018 12:36 AM
46	Less Housing, More agriculture, More CLEAN industry (i.e. locating some food manufacturing companies here !) better care and maintenance of all current infrastructure i.e. roads (roads all over the tri county region are exceedingly dangerous)	3/13/2018 12:11 AM
47	Additional support for small farming, stop the pipelines, and more conservation of our natural land. When I moved here the silica plant was about to close and now they are blasting again. How do you tell people you moved to the country when you live just miles from a blasting zone?	3/12/2018 11:02 PM
48	Team work	3/12/2018 10:21 PM
49	Progressice approach to waste management. Strong governemrt rehabilitation programs to curb the drug problem.	3/12/2018 10:20 PM
50	Our area grow and create better paying jobs as well as getting rid of building that are falling down and creating eyesores to the beauty of the area	3/12/2018 9:57 PM
51	More protection of land for agricultural, history and natural resources for the development of tourism.	3/12/2018 9:03 PM
52	Same as #7	3/12/2018 3:55 PM

53	More resources for law enforcement to fight drugs and crime, more transparency in local government, improve infrastructure before bringing additional business/people to the area	3/12/2018 1:33 PM
54	Major road/highway infrastructure upgrades - various projects across the EP.	3/12/2018 1:16 PM
55	I'd like to see continued momentum from the work that it took to bring P&G to the area. We benefited greatly from a carefully orchestrated effort between several government entities and educational institutions to provide P&G with what it needs to be successful. It would be great if we could do the same with other large employers plus have cohesive programs in place to prepare our workforce for full-time, skilled employment.	3/12/2018 11:16 AM
56	Better infrastructure planning Cohesive government between city, county, and state Support for more tourism	3/12/2018 10:20 AM
57	Upgraded Infrastructure	3/12/2018 10:08 AM
58	Improvements to infrastructure, especially roads. Improvements to the carrying capacity and safety on Route 9 and Route 522.	3/12/2018 9:05 AM
59	Financial investment in education to retain educators; establish infrastructure plans for future trends as well as current needs.	3/12/2018 9:01 AM
60	Funds to build infrastructure. Investment in education. Recreation facilities in Morgan County, other than baseball fields.	3/12/2018 8:27 AM
61	Development of a strong center for businesses in downtown Martinsburg. It could be the epicenter of regional development, drawing people and businesses to the panhandle.	3/11/2018 3:13 PM
62	Education reform and improvements to the infrastructure of the roads and highways / traffic congestion	3/11/2018 11:21 AM
63	Planned growth and infrastructure Improve roads, Rt. 9, 45,51and by passed around Martinsburg.	3/11/2018 7:31 AM
64	Mostly focus on attracting businesses and new residents to Morgan County. Morgan county has just over 17,000 residents at last census, but no reason to keep them here or attract new younger residents as most people move here to retire. I think a route 9 and route 522 by pass would alleviate congestion in Berkeley Springs and allow for a safer environment for tourists. I think that more businesses would be great because it would give a reason for people to move here. We are on the right track with the gas pipeline and some smaller businesses coming here but I'd like to see a few larger chain restaurants to give more choices for food to residents and tourists, id also like to see more hotels to increase tourist accommodations currently we only have the county inn, the best western and the Cacapon lodge	3/10/2018 4:19 PM
65	Linking all counties together as far as options and growth	3/10/2018 4:17 PM
66	expansion on all fronts	3/10/2018 3:47 PM
67	High level, well paid, job growth	3/10/2018 11:14 AM
68	Working together to fight drugs and training for jobs to keep people from moving out of the county. Getting new companies to come	3/10/2018 12:37 AM
69	More investment in technology infrastructure, more resources for young professionals, increase in small businesses that attract families and young professionals to relocate	3/9/2018 5:38 PM
70	Improve infrastructure to support growing population, Improve public transportation options to get people to jobs and off of unemployment and Medicaid, and improve drug and crime issue before it gets completely out of hand.	3/9/2018 5:07 PM
71	Improved roads and better public transportation	3/9/2018 4:59 PM
72	I would like to see a focus on resolutions that actually help, we have a HUGE drug and trafficking issue in our area. Addiction is real and we should really look at a positive way to finally (LONG TERM) resolve the problem. Many of our new large businesses have struggled to find people to work so much that a few have busses that travel from other states to bring employees in.	3/9/2018 4:51 PM
73	Community development - attracting and creating "things to do" for an otherwise despondent population. Overall increase in pay commensurate with the boom in population and current residential construction underway.	3/9/2018 4:50 PM
74	improve Rt. 9 from Berryville (Rt. 340) to Berkeley Springs	3/9/2018 4:28 PM
75	market quick durable workforce Frank Subasic	3/9/2018 4:28 PM
76	Continue to recruit and attract high paying jobs. Keep real estate prices affordable for working families. Invest in the county high school system to make it the best in the area.	3/9/2018 4:19 PM
77	Offer what Maryland and Virginia offer residents.	3/9/2018 4:11 PM
78	strengthen local professional business opportunities to reduce commuter population and increased training for skilled technical jobs	3/9/2018 3:50 PM
79	While we have had some great businesses move in with employment opportunities we need to continue to help small businesses and find public transportation for those in out lying counties to get there.	3/9/2018 3:32 PM

80	I know I am just stating the obvious, but if we grow too fast, our resources will not be able to keep up - causing failure in that growth cycle. I guess the business plan on how we anticipate keeping up with any growth would be helpful...I am not talking about having natural gas (natural resources) to attract new business. I am talking about actual resources to fill those businesses. We need the education of basic skills for our young workers - this has been lost in the school system with everyone concerned about state testing vs. good old basic math, communication, logical thinking skills. How do we put people to work and keep them working with what they really CAN do. How do we keep people in the living and working in the state, paying taxes, spending their money locally...How do we encourage folks to get off of welfare and actually work vs. having the state pay for those who have the ability to work...thus the state having MORE money to invest in education, training, attracting, building...	3/5/2018 5:23 PM
81	Better Roads to accommodate new development.	3/5/2018 5:20 PM
82	A drop in the crime and drug rate.	3/5/2018 1:07 PM
83	Better opportunities for higher paying jobs that are not through the Government.	3/5/2018 10:48 AM
84	Expand Route 9E, more grocery options in MC, attract more families in MC	3/3/2018 4:58 PM
85	Business growth improvement	3/3/2018 11:32 AM
86	exceptional digital communications infrastructure coupled with strong protection of environmental resources; access to affordable local advertising, networking, and marketing services. expanded higher education, vocational, internship opportunities. Support of local businesses, protection from big box stores in our county.	3/2/2018 8:17 PM
87	I would like to see the downtown area cleaned up (in progress) and not just mainstreet. It would be great to see more local restaurants and less chains, or if there has to be chain restaurants, then different ones. All the ones we have we can go both north to Hagerstown and south to Winchester and find the exact same ones.	3/2/2018 12:01 PM
88	I would like to see a broad marketing campaign for WV small town tourism directed at major cities including Pittsburgh, Baltimore, and Washington, DC.	3/2/2018 11:53 AM
89	More Business's to Morgan County with Better paying Jobs!	3/2/2018 11:47 AM
90	Installation of fiber optics, lessen impact fee for building and give tax incentives to attract new businesses	3/2/2018 11:34 AM
91	Sweeping and strict drug reforms. So many people overdose, are revived via government provided assistance, then repeat the process soon after. It's a vicious cycle that usually ends in fatalities vice rehabilitation.	3/2/2018 11:34 AM
92	modest growth that preserves local ambience. recognition by Charleston that EP is part of the state high connectivity via Internet creative and visionary leadership	3/2/2018 11:12 AM
93	Education to the public. Focus more on growth and start ups and not the existing businesses that are not interested in growth. Their is a void between a person with an idea and the knowledge to run the business to them having the knowledge to do it. This has hampered many small perspective start up businesses that would hold true to Morgan County and the tourist theme we seem to hold to.	3/2/2018 11:01 AM
94	Create a vision to create a community that has a 'live here, work here, play here' mentality. When there is a path of economic opportunities after getting a great education, along with diverse and enjoyable entertainment options, a community's youth will have hope for the future, and will continue building on the successes of previous generations, instead of looking elsewhere for those opportunities.	3/1/2018 4:48 PM
95	An employable body of people.	3/1/2018 4:15 PM
96	Transportation issues resolved, new businesses with the support of the local governments, entertainment that appeals to all age groups and a thriving economy.	3/1/2018 4:06 PM
97	I would like to see all three counties provide resources and become more small business friendly. There are vast differences between the counties themselves in this area, but it seems that we are focused on manufacturers and big business, the little guy often is overlooked or the regulations drive him out of business.	3/1/2018 3:55 PM
98	A strong presence in Cyber security, whether a command center (SOC), government agencies or businesses that support this field.	3/1/2018 3:26 PM
99	Growth in tourism and industrial expansion	3/1/2018 3:24 PM
100	route 9 expansion to Berkeley Springs	3/1/2018 11:44 AM
101	Three very diverse counties. Important to maintain and increase organic farming/land stewardship. Berkeley is, of course with I-81, the main economic hub with Jefferson a strong second. Morgan County with it's mountains and water is a natural tourism center and this should be highlighted.	2/28/2018 11:37 PM
102	Would like to see a significant increase in white collar job creators. Would like to see a focus on improving the quality of life for 20-40 year olds. Would like to see more affordable professional development opportunities. Would like to see expedited infrastructure improvements re: roadways (haha) and water/sewer expansion. Would like to see changeover in Mainstreet management to see actual revitalization of our downtowns.	2/28/2018 10:32 AM
103	see above	2/27/2018 3:24 PM

104	Improvement in selection and quality of businesses - specifically retail for spending, more jobs - over the last year my extended family and I have all searched for jobs and could not find work in the Eastern Panhandle that paid sufficient wages, better access to mental health care and drug treatment - if people are happier and healthier and living a better quality of life they are more likely to be effective workers in a job and to spend money well, better prices on utilities, taking care of the lower class by offering affordable housing and government assistance, Martinsburg is being gentrified and it is horrible	2/23/2018 1:26 PM
105	Introduction of Fiber Lowering of housing prices Increase of median wage	2/23/2018 11:47 AM
106	Capitalize on the Airport. Attract high tech and scientific research businesses	2/23/2018 10:48 AM
107	Focused tourism development	2/23/2018 8:05 AM
108	Zoning in Berkeley County	2/22/2018 9:56 PM
109	Better public transportation to NoVa and D.C. area, because a lot of residents work outside WV due to the lack of tech jobs here	2/22/2018 9:09 PM
110	Transportation infrastructure improvements, education goals re-evaluated so they are not just oriented toward academics but also emphasize skills needed to better utilize the the information presented in the classroom.	2/22/2018 8:58 PM
111	Leave West Virginia and join Virginia.	2/22/2018 8:25 PM
112	Focus on urban infill development	2/22/2018 8:08 PM
113	Build on the optimism and improvement in commercial expansion that we have seen begin with President Trump.	2/22/2018 7:32 PM
114	Grow good paying jobs and growing "downtowns" with strong small businesses	2/22/2018 5:41 PM
115	I'd like our state to recognize the powerhouse we are and quit treating us like part of the other 52...	2/22/2018 4:17 PM
116	Develop plan for small niche agribusinesses Develop niche draw for downtown area Develop plan to promote downtown living/ neighborhoods	2/19/2018 3:32 PM
117	Less of the same stores being built. Better parking, less drugs, making the area nice to drive around in.	2/19/2018 10:15 AM
118	More regional coordination - The Panhandle is a strong economic region and should be marketed rather than each county or multiple cities competing in each other.	2/17/2018 11:56 AM
119	We need to make our area of the state attractive to businesses in order to provide good jobs that will keep our young people who graduate from whatever schooling they choose to attend. Our state is losing population due to the lack of adequate, good paying jobs with decent benefits. The state needs to invest in infrastructure in the areas of the state where growth is occurring and where people want to visit.	2/16/2018 9:28 PM
120	More job opportunities within the border ; competitiveness with border states	2/16/2018 12:18 PM
