

Honeycomb Sound Portable Wireless Speaker System

Business Opportunity

- Patented innovative hexagonal “Honeycomb” design delivers exceptional fidelity with deep bass and dynamic surround sound from a single unit.
- An elegant smart speaker design concept. A creation of smooth lines and very impressive sound.
- A perfect marriage of form and function that fits beautifully into any décor.
- Ideal for home & office.

THE SWEET SOUND OF MUSIC

Wonder why the honey bee creates a hive in a hexagonal pattern? Efficiency, Strength, & Quality are the answers. These same guidelines drive the natural sonic quality of the *Honeycomb Speaker System*. High power & low distortion from a compact & efficient system.
