John Krischuk is "Pancakes" nephew. Pancake was a character that was well liked by everybody that knew him. When pancake passed away, John made a hunting camp out of the Krischuk farm, land Northwest of Cando. John has enjoyed coming here for years and has made some amazing memories. He has recently decided to sell out and focus on his Minnesota home. The land is sold and this auction will be his final chapter. Everything is in working condition and well cared for. Thanks ahead of time and good luck bidding.
