Thank you for taking the time to research which cattery you choose to purchase from. We recognize purchasing the right breeding cats for your cattery is a big job. Since we don't know each other yet, we do need to vet you. The questions may seem invasive, however, we both want what is best for your cattery. The questions are the best way for us to begin to know you well. Feel free to ask us the hard questions as well. We will want a working relationship for many years to come. We will be here to mentor you and answer any questions for as long as you need or want us.

Please fill out the following completely. False or missing information may result in an application denial. Please take your time and be thorough as this is our view of you. We will contact your vet, landlord, and other references. You must be 18 years of age to apply.
