

FARMLANDSKY

## **Call for Speakers**

### **AgriTech & Space Startup FarmlandSky Conference**

**12 November 2025**

We're inviting visionary speakers to join our hybrid conference (Zoom + in-person) this November 12, 2025, focused on the future of startups, agriculture, and space technology.

#### **Theme:**

Innovating Agriculture from Space 2025: Startups, Challenges & the Future of AgriTech

#### **Topics of Interest:**

- Satellite imaging & Earth observation for farming
- Climate-smart agriculture solutions
- Startup innovation in AgriTech & SpaceTech
- Challenges in scaling agri-startups
- Policy, funding, and sustainability in space-agri solutions

#### **Event Details:**

- Date: 12 November 2025 (Time 4pm - 8pm CT)
- Hybrid: Live on Zoom + In-person (Location TBA)
- Format: Talks, panels, or short presentations (10–20 min)

#### **Who Should Apply:**

- Startup founders & entrepreneurs
- Researchers & scientists in agriculture or remote sensing
- Space industry professionals
- AgriTech investors & policy experts
- Tech builders solving real-world farming problems

#### **Why Speak:**

- Share your vision and solutions with a global audience
- Connect with startups, experts, and potential collaborators
- Help shape the future of food, farming, and technology

**Deadline is October 15, 2025**
