

Re: Introducing Higgins House of Rest

*Higgins House of Rest and A Higgins Cremations was developed after the Higgins' family personal tragedies dealing with murder, suicide, mental illness and death. Nija Higgins, founder, was fortunate to have participated in every part of the funeral arrangements of loved ones. Hence, writing the obituary, the memorial video, choosing the casket, burial site, order of service, make-up, etc. The funeral home owner, a childhood friend and death care guru, that provided funeral service to the family, thought she was a natural and encouraged her to consider funeral administration. He also allowed her to shadow and work at his funeral home.*

*Nija went back to school and became a licensed funeral director. After graduation, she was immediately able to work under a Nationally known Funeral Director/Embalmer that thought she would be a great asset to the industry. It was decided that her training would not only include being a funeral director, but the CEO. Higgins House of Rest was born from the vision of "helping families holistically." Thus, providing families with services fused with education. Nija has a very decorated educational background that has expanded over 25 years. This includes a principal and superintendent certification.*

*"I think I would have made better decisions if I was more equipped with information." The lack of knowledge forced her to learn more about the industry. She wanted to help families in her community make better decisions, This would eliminate making poor financial decisions while grieving.*

*Higgins House of Rest is not just a funeral home, but a place to empower families affected by Domestic Violence, victims of childhood trauma and those who are without family and support. Please allow Higgins House of Rest the opportunity to build a relationship with your family.*

*Yours Sincerely,*

*Higgins House of Rest Team*
