SGIP INAUGURAL CONFERENCE

PGA HOTEL PALM BEACH GARDENS, FLORIDA NOVEMBER 5-7, 2013

Dress Code for the conference is business casual

November 4-5 – Technical Meetings & Tutorials

Technical Meetings & Tutorials Schedule

Agenda

Conference Registration

Conference Attendee List

Transportation Information

Hotel Information Update

This not-to-be-missed event is an unprecedented opportunity for Smart Grid stakeholders from all domains of the power energy ecosystem to come together and discuss the orchestration of the standards that critically impact, enhance, and accelerate the deployment of a smarter grid.

Hear about industry perspectives on Smart Grid interoperability standards and related topics such as: cybersecurity; transactive energy, microgrids, effect of interoperable standards on advanced metering infrastructure; outage management and international perspectives, an introduction of release 3 of the NIST Smart Grid Framework and highlights of changes; case studies; and business concerns.

Learn more about the conference and download the overview agenda in the [Conference Prospectus](#).
