ABOUT JUSTIN

Justin McLane spent twenty-eight years as a practicing pagan — raised in an anti-Christian household, his mother active in groups targeting Christian leaders — before a genuine encounter with God changed everything. He deployed twice to Iraq with the **101st Airborne Division**, came home, and eventually found himself leading a growing church in eastern Tennessee. His story of estrangement — a mother who cut ties after his conversion, a father who distanced himself after a political vote — gives him unmatched credibility when speaking about division, identity, and the cost of conviction. His 2026 book, *God Is Personal*, is already changing lives.

"I am not a polished speaker who studied faith from a distance. I lived the opposition. I know what it costs to change your mind — and your life — in a world that pushes back."

— JUSTIN MCLANE
