

Chemical Release Form

Thank you for choosing Meraki House of Style for your hair services. Our team of experienced stylist are dedicated to helping you achieve your hair goals, while maintaining healthy hair. To achieve this your stylist will give a comprehensive consultation to help you understand the process to reach your hair inspiration. In any case, a chemical service is a deeply involved process; some things may not be possible or may have to take place over the course of multiple sessions. We appreciate your patience through this process so we can help you achieve your hair goals.

___ I understand that the service I have requested is a color correction. Meaning that my stylist may implement the use of color removers, lightener, bleach, etc. to pre-lighten or remove color from my hair to create the necessary canvas to attain my hair goal inspiration.

___ I understand that the color correction process can take multiple hours in the salon. I also understand that this time and product comes at a price and have budgeted enough time and money for this process. My stylist has discussed a starting price for this service, and more time and product will be charged accordingly.

___ I understand that color applications may require lighteners, removers, or bleach that may cause damage to my hair.

___ I understand that after a color correction colors, toners, vivid colors, etc. may fade within the first few weeks & results in less vibrant hues or increased brassiness. I acknowledge that this does not constitute reason for a refund.

___ I understand that maintaining my new hair is achieved by using the supporting products and home care my stylist recommended based on their applications rendered.

___ I understand that failure to follow the care instructions given by my stylist may accelerate the loss of color retention and health of my hair. This includes, but is not limited to: using heat, washing more than advised, exposure to sun, chlorine, and other environmental factors outside of my stylist's control.

___ I understand that I am responsible for disclosing any and all previous color & chemical services. This includes box dyes, permanent waves, smoothing treatments, henna, "Sun In," "Splat," etc. and may affect the desired color result. Failure to do so may prevent my stylist from executing the service to the best of their ability.

___ I understand that prices are determined by the amount of product used and the amount of time invested by my service provider, and that these two factors cannot always be determined prior to the start of a new color service.

___ I understand that my stylist has advised a strand/patch test to check for allergic reactions, color retention, chemical reactions, etc. based on my history I have shared. When this is advised, I understand that my stylist will monitor my reaction during the processing time, and it is my responsibility to continue to monitor myself for the next 24-48 hours and communicate any issues to my stylist. Failure to communicate any reactions past or present could result in a more serious reaction. I acknowledge that my stylist has done their best with the information given to use the techniques and products to prevent this occurrence to the best of their ability and assume all responsibility for failure to communicate these issues.
