Our Lifestyle

Here at Straight Shot Labradors, we are a family orientated business, and we take pride in our dogs. We strive to improve the lines and quality of our pups. Each and every puppy is treated like one of our own. Our dogs are highly intelligent and extremely easy to train! They have a laid back, gentle, attitude that is perfect for family or service dogs, but they are not lazy and still have that “go get ‘er” enthusiasm. Our pups have become hunters, service dogs, and family dogs. Below is a list of occupations that our dogs and puppies have all succeeded at!

- Family Member/Best Friend
- Retriever/Pointer/Gun Dog
- Service/Search and Rescue
- Shows
- Searching for narcotics and other substances

Keep us up to date about your new addition to the family! You can contact us privately through email or phone, or share pictures and updates with everyone that has pups from us at the group Straight Shot Labradors, on Facebook!

Recommendations:

- Microchipping: Microchipping is a great way to ensure that if your puppy/dog every gets lost or stolen, it can be returned.
 - Tags on a collar can be removed, GPS collars can be taken off, but a microchip is always there. If a pup is brought to the vet or the shelter, they are immediately scanned for a microchip in hopes of finding the owner!

- Trupanion: insurance for your pup! It's an excellent thing to be a part of, and is very easy to work with, and can help cover almost any vet costs you may have!

NuVet and NuJoint Plus!

NuVet is a vitamin that we always recommend giving your new best friend. NuJoint Plus is a vitamin, mineral, and all things good, that we MANDATE for our guarantee! It can be given all throughout their life, and ensures that the puppy/dog is getting the nutrients they need to grow, mature, and stay healthy! Check out the products at www.nuvet.com

- Improves overall health
- Promotes healthy skin and coat
- Strengthens bones and joints
- Supports ear and eye health
- Helps keep the GI track on track
- Boosts immune system

Registration Information

- All new owners WILL be given AKC registration.
- If for any reason you are not given papers upon time of purchase, you will be given them upon completion of payments, or as soon as we receive them from AKC.
 - Special litters (out of an imported sire/dam) may take a little longer to receive papers for AKC. Papers will be mailed to you ASAP.
- Full Registration vs. Limited Registration: Full registration is simply breeding rights. Limited registration is still having AKC papers in your name, but owners are not allowed to breed their puppy.

Our Contract and Requirements

Breach of contract fee: \$2500.00

In any cases of breach of contract, you have 8 months to cover any fees and costs associated with a breach of contract. If for any reason, a matter goes to court, whether on our decision, or yours, it must be in Cheyenne, WY. You will also be required to cover ALL of our attorney fees and costs, as well as court costs and fees, from the very beginning until the very end. Any public slandering or degradation of Straight Shot Labradors, our business, or our family, will result in a breach of contract. Each and every point over the next couple pages results in an individual breach of contract fee.

- Your puppy/dog MUST be kept up to date on his/her vaccinations and have regular trips to the veterinarian.
- You MUST register your puppy, with the AKC paperwork given, within the 60 days of bringing him/her into your home.
- If the new owner can no longer keep their puppy/dog:
 - Contact us first. Puppy/Dog MUST come back to us unless discussed otherwise with us.
 - No puppy or dog will end up as a stray or in the shelter for any reason other than him/her getting lost.
 - If pup is in shelter or pound due to running away, you must be able to provide some form of proof that you were searching for it.
 - We will NOT provide reimbursement of any sort, we will however ensure that any puppy/dog will find their perfect forever home!

I acknowledge and agree to the information found on this page: _____

- Puppy/dog will NOT be mistreated in anyway (neglect, abuse, ect.) Our #1 goal is to make sure every pup we sell, is a family member.
- All new families must be pre-qualified, and meet the following requirements:
 - Puppy/dog will never be locked up in a kennel/crate/small dog run for long periods of time, or put on a chain/leash and left outside in the weather.
 - Our pups are NOT meant to be kennel dogs. They deserve to be treated as a family member. For example, you cannot leave them chained outside for a week because you decided to go on vacation. You may however, leave them in a backyard, or a run large enough for them to get plenty of exercise, with plenty of food, water, and shelter from the weather.
 - New owners must have the time to care for the puppy/dog and they must have a yard big enough for the dog to run and play in, or the puppy/dog must get plenty of exercise daily.
 - You must stay in contact with us as the pups grows and matures. If we reach out through 2 or more forms of communication, (letters, phone, email) and do not receive a response over the course of 2 months, we reserve full rights to come check-in on the puppy/dog. If you cannot show us said puppy/dog upon arrival, or cannot provide proof that puppy/dog is healthy and happy, it will result in a breach of contract.
- **LIMITED REGISTRATION:**
- Pup must be spayed or neutered by the age of 18 months. We want our pups to go to homes, and to become part of the family.

I acknowledge and agree to the information found on this page: _____

- The majority of pups that are from an accidental or improperly planned breedings end up in the shelter, as strays, with households that don't treat them as family, or with significant health issues.
- o Accidental litters result in a breach of contract fee, as well as you pay us \$500 per puppy that was produced (live or stillborn) out of the puppy/dog we sold you. (For example, if your dog produces 4 puppies, you pay \$2500.. plus \$500×4 which is a grand total of \$4500.00)
 - If there is suspicion of an "accidental" litter, we require that you allow us to DNA test every puppy in the litter, as well as the dog we sold you.
- o **FULL REGISTRATION:**
- o Pups sold with full registration may be bred. However, your puppy or dog is not to be bred until the age of 2 years old. Breeding before the specified age will result in a breach of contract.
 - Any and all pups who will be bred must be genetic tested, or have proof of genetic clearance through parents. No puppy shall be bred if they are affected by ANY genetic mutations!
 - OFA hip score of at least "fair"
 - OFA elbow of at least "normal"

Our Guarantee

All of our puppies that come from Straight Shot Labradors, come with a 2 year health guarantee against any genetic related issue if issued by a licensed veterinarian. This includes, hip/elbow dysplasia, EIC, PRA, etc. We will NOT provide monetary reimbursement. Instead, we will provide you with a replacement puppy from either our current litter, or a pup out of our next 2 litters. I will not move you above any other family with a deposit on a litter, if the deposit was placed prior to us agreeing upon a replacement puppy. Each and every puppy will be up to date on vaccinations, dewormed, be properly socialized, and come with their AKC registration paperwork.

Guarantee Validations:

Giving your new best friend NuJoint Plus is MANDATORY until the age of 2 years, with NuVet Immunity Plus being HIGHLY recommended to go with it! Labs are mostly done growing by the time they hit 2 years old. NuJoint Plus supports joint growth, bone structure, and ear and eye development (to name a few), and NuVet Immunity Plus supports their immune systems! We feed both NuJoint Plus and NuVet Immunity Plus to each and every one of our dogs and puppies, starting from just 4 weeks old!

- **If the circumstance arises, and your puppy does have a genetic issue and you want a replacement puppy, you must provide:**
 - Proof the pup has been giving NuVet Joint Plus the entire time they have been in your care, until he/she is 2 years old.
 - Keep receipts and bottles for every purchase.
 - X-rays/paperwork must be sent to the Orthopedic Foundation for Animals (OFA) to be examined, and the results from OFA forward to us.
 - Vaccination records, as well as licensed veterinarian visits.
 - You must be able to call your veterinarian and grant us access to view all vet records regarding your puppy/dog.
