

## **TECHNICAL DESIGN SUMMER 2026 INTERN**

### **POSITION OVERVIEW**

#### **Methodical. Detail-orientated. Precise.**

The Technical Design Intern will assist the technical design team with the entire product process, from development through the production stage. Job duties include participation in fit sessions, taking fit notes, creating and updating tech packs, measuring samples and working with team on strategies to solve fit and construction issues. Additional may duties include Technical Sketching, CAD work and evaluation of Lab Dips, Bulk Swatches and Trims.

Position will be responsible for assisting the technical design team with the entire process of garment review from inception to delivery. Requires maintenance of detailed records, timely completion of forms and strong correspondence skills between production and customer. Includes working in ERP system to log garment measurements, fit photos and alterations and communicating those to the factory.

Position is FULL TIME in our Corcoran, Minnesota office from mid-May to mid-August, dependent on candidate's summer school break.

### **QUALIFICATIONS**

- Critical eye for detail and proportion
- Strong measurement and technical skills
- Excellent communication and collaboration skills are a must
- Knowledge of Microsoft Excel and Adobe Illustrator
- Knowledge of Optitex software, preferred

### **EDUCATION/EXPERIENCE**

- Working toward a Bachelor's degree (B.A. /B.S.) from a four-year college or university OR
- Degree in a design field and general knowledge of clothing manufacturing and construction.
- Experience in Technical Design.
