

## Creating and Using an Account for the First Time on Typing.com | St. Mary

Start on our [stmarylc.org/library](http://stmarylc.org/library) page, but scroll down to the second grid, titled Keyboarding. Click on the second block in the first row, "Typing.com | St. Mary".

You will see this screen. Click on the "Create a New Typing.com Account" button.

You will be directed to the sign-in page. Fill in the information there. Please note that there is a check box at the bottom to verify that a parent is with the child creating the account and directing the child to create it. (It's a federal law for children under 13. Unfortunately, many sites don't bother with it.)

Sign Up

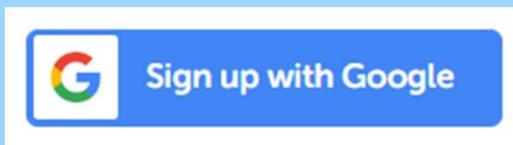

This is the check box.

Click on the yellow "Sign Up" button.

Click on the yellow "Sign Up" button.

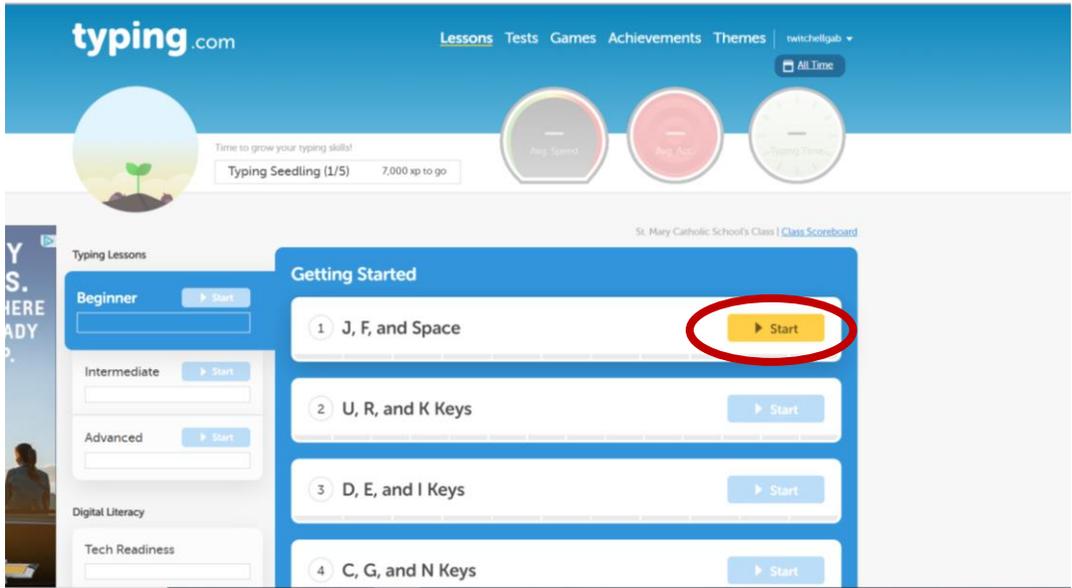

NOTE: If someone else already has that username, the field will turn red and it will ask you to choose another username. Create something unique that you can remember.

Alternate account creation:

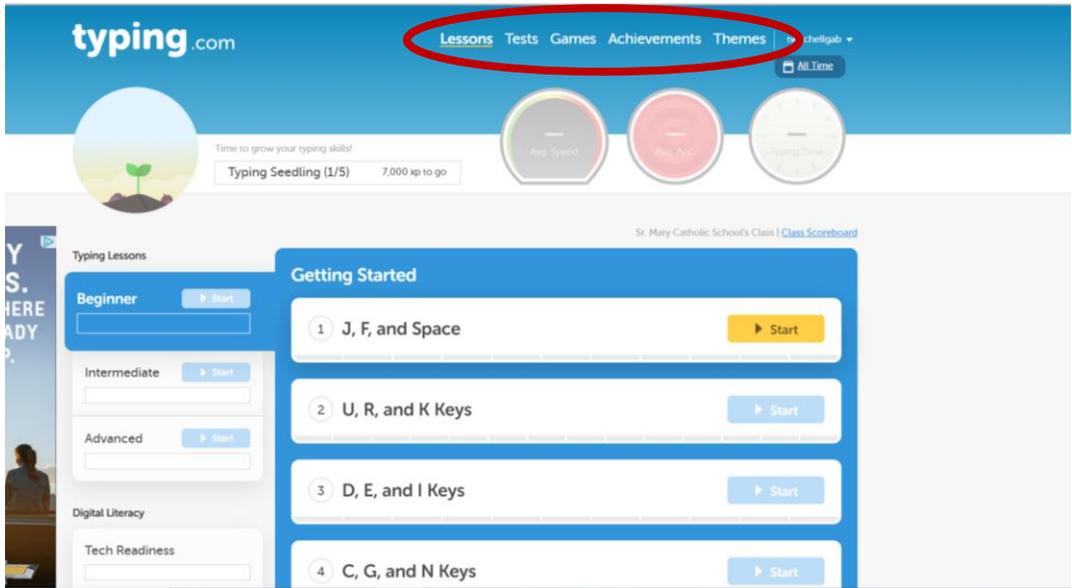

If you have a Google account you'd like to sign up with, that's fine. Please be sure, however, that the teacher can tell it's you/ your child. Some teachers may assign practice time; you'll want to get credit for your work. 😊

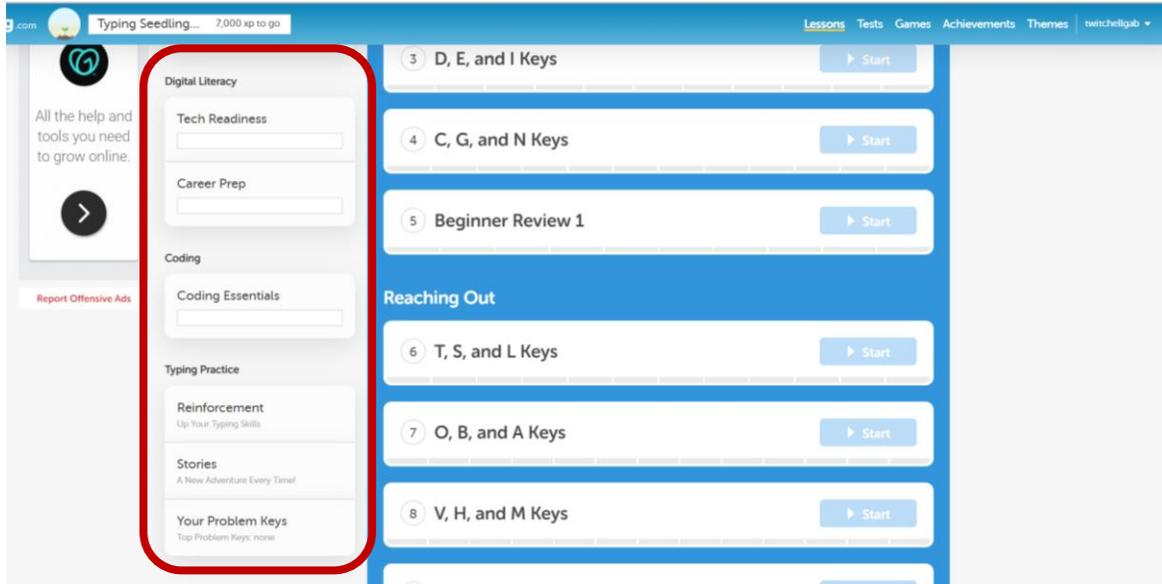

Once you have your account info set up, the system will log you in. You will see this page. What you do next depends upon what your teacher asks you to do. If you're just practicing, you would click on the yellow "Start" button and just follow along. The program will lead you through lessons and practice.

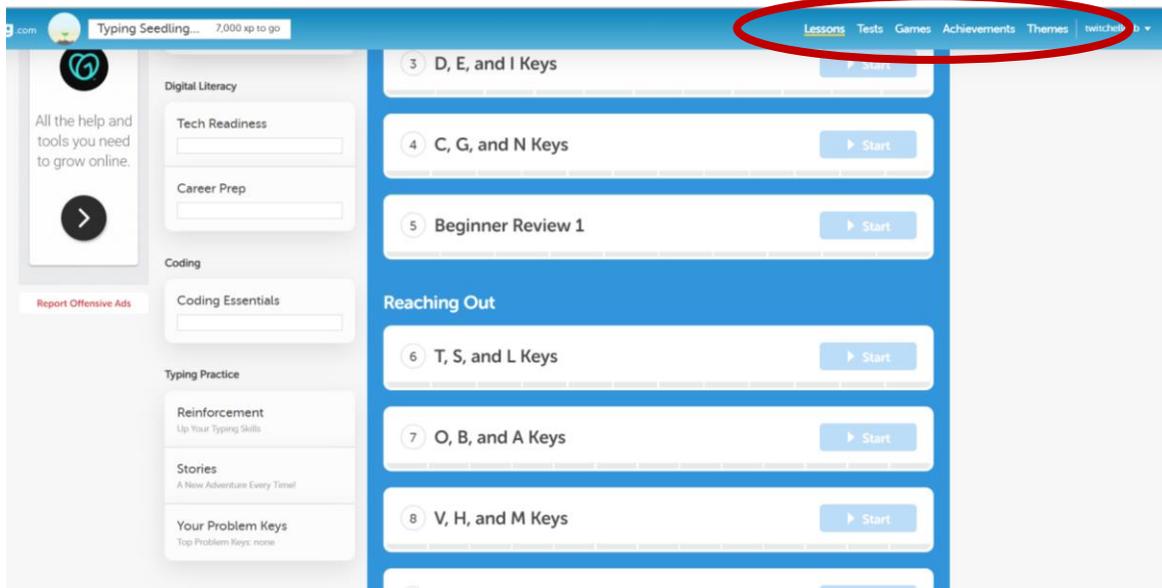

Links to other activities (tests, etc.) are across the top.

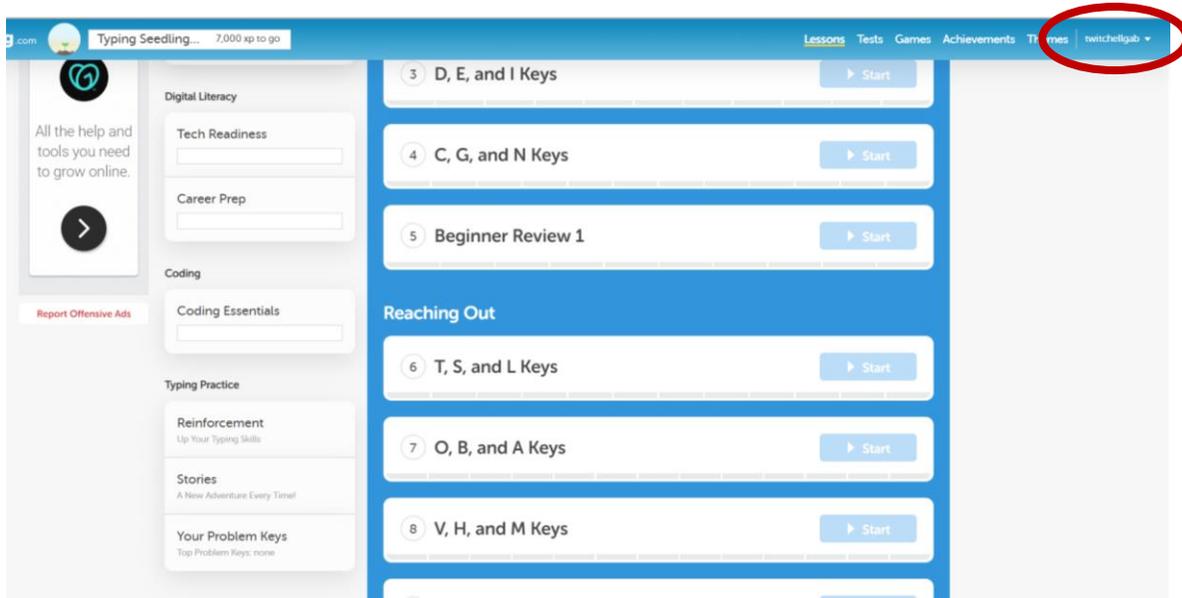

Links to Digital Literacy and Coding lessons, plus extra typing practice are found along the left-hand side menu. You'll have to scroll down to see them all.

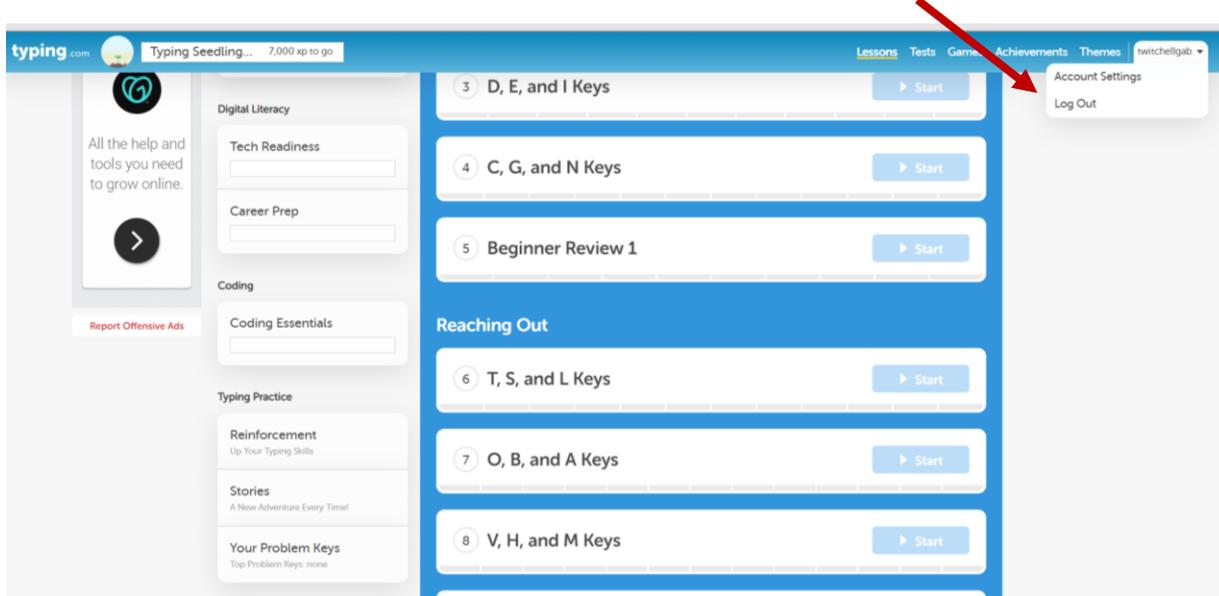

NOTE that the blue ribbon across the top is still there, with links to lessons, tests, games, etc.

When you are ready to quit, click on your username at the top, right corner.

A white drop-down menu will appear. The Log Out link is here. Click on it.

That's it! Have fun typing!
