Our gay 'pride' colors are RED, WHITE & BLUE, not rainbow

De "Sanity" And The Parent's Rights Bill

Florida Governor Ron De Santes signed into law HB 1557, Parental Rights in Education bill; the unfairly maligned and misnamed "Don't Say Gay" bill.

Why would parents need parental rights legislation? Isn't it obvious that parents single job is to protect their children? What schools are teaching their children needs to be transparent and divulged? Well, apparently not as parents have increasingly discovered that their children are being brainwashed with Critical Race Theory, Social Emotional Learning, and Gender Ideology.

And the dangers to children are coming from within and without. From social media and toxic TikTok, private SnapChat accounts and Instagram influencers where children and young adults are being pressured to "express themselves," "discover their many genders and sexualities," and most importantly, "find their identity."

This compliance pressure is coming not only from their peers, it is coming from educators, corporations, politicians, physicians, psychiatrist in a psychotic swirl reminiscent of the Salem Witch Trials, falling over themselves to be more woke than woke, gayer than gay, more "queer" than queer.

No group is more involved in this intrusion into the lives of other peoples children, than the LGBTQAI2S+ Alphabet Mafia; the Rainbow Pride poison lobby. This has inspired the rebirth of the ancient trope that all gay men are pedophiles. Statistically incorrect.

But, the true agenda may have many layers.

- That gay men are so infatuated with their same-sex attraction that they consider it the preferred sexuality ignoring that same-sex bonding does not create life nor contribute to humanity's continued survival on earth. It is, and will remain, an alternative sexuality.
- That if you persuade children to be bodily inquisitive and exploring, then they will most likely grow to be promiscuous teens where these 'blooming buds of youth' will be ready to be plucked by the already promiscuous gay male, so-called community.
- That the LGBTQAI2S+ rainbow planation people really believe that they are the fair minded people and that anyone who does not adhere to their group-think is a bigot.

Indeed, Gay Men's Chorus of San Francisco conceived, wrote, compiled and attained board approval for their song, "We're Coming for Your Children," *'bit by bit, you will hardly notice it.'* Along this timeline how many involved paused and considered that this was probably a really bad idea? Probably none.

Coming for the children, separating them from their parent's influence, is an ancient and proved state, propaganda vehicle exploited in the rise of the Third Reich with the Hitler Youth, Chairmen Mao's China and the subsequent Gand of Four, and Pol Pot's Cambodia to name only a few. It is the realm of tyrants and dictators.

Gay Men's Chorus of San Francisco reaction to the harsh pushback was to explain that LGBTQAI2S+ just wanted to make sure that your children didn't grow up bigoted. Of course, they get to decide what is a bigot ignoring once again that the raising of other people's children is not their business.

What is so striking about the LGBTQAI2S+ rainbow planation people and their so-called allies is that they ignore that lesbians, gay men and bisexuals have never needed instruction on how to be gay. We never needed user manuals or guide books on how to have gay sex. It's intuitive. We did not need so-called allies taking someone else's children to an adult-only gay night club to show them "how to be gay."

It is patronizing and demeaning.

Most likely, what the so-called allies will do, once this tsunami backlash arrives, will walk away from the LGBTQAI2S+ community and leave it in pieces. They are simply setting us up to take the rap for their virtue signally.

Parents, Patriots, Politicians, do not let the LGBTQAI2S+ Alphabet Mafia, the rainbow planation people, come between you and your children. Do everything you can to expose this agenda. Watch everything online that they access. Read every single piece of prescribed work they bring home. Attend school board meetings and get involved with your local political parties fighting to rescue your children.

LGB Patriots organization fully and unequivocally supports HB 1557, Parental Rights in Education bill. Let's hope every state in our union does the same.

Thank you Governor Ron de Sanity.
