ART on MAIN

Project Overview

Art on Main is a community-led placemaking project designed to transform a currently underutilized 1,200-square-foot alleyway in downtown Reading, Michigan into a vibrant, interactive, and art-forward pedestrian corridor. Blending public art, architectural design, and social engagement, this space will serve as a year-round destination for both residents and visitors.

This initiative is more than beautification—it is a bold investment in creative economic development, civic pride, and cultural vibrancy. It is a shovel-ready project poised to make a lasting impact on the identity and vitality of our small town.

"The Art on Main project is more than murals and paint—it's a celebration of our community's creativity, history, and bright future. We're proud to support a space that brings people together and showcases the heart of Reading."

Chad Penney
City of Reading Mayor

"Art on Main would not only improve the aesthetic appeal of our town but instill a sense of pride in our community."
