

GLP-1 PROGRAM OPTIONS

Personalized GLP-1 programs designed to support sustainable weight loss, improve metabolic health, and help you achieve long-term results.

1 INSURANCE-COVERED GLP-1 MANAGEMENT

\$129
/ MONTH

For patients using insurance-covered GLP-1 medication.

Medication cost depends on insurance and pharmacy coverage.

INCLUDES:

- ✓ Prescription management
- ✓ Prior authorization support (when required)
- ✓ Treatment recommendations and dose adjustments
- ✓ Secure provider messaging
- ✓ Ongoing symptom monitoring
- ✓ Medication side effect management
- ✓ Personalized treatment planning
- ✓ Follow-up visits and progress monitoring
- ✓ Priority scheduling
- ✓ Coordination of laboratory recommendations

NOT INCLUDED:

- Medication costs
- Laboratory testing
- Comprehensive laboratory review appointments
- Additional wellness memberships or services

Laboratory testing may be recommended based on your treatment plan and can be completed through insurance, your PCP/OB-GYN, or self-pay laboratory services.

Includes medication, provider oversight, dose adjustments, and ongoing support.
Medication pricing may vary based on dose and treatment plan.

IMPORTANT INFORMATION

GLP-1 medications are prescription medications and require medical evaluation. Not all patients are candidates for treatment. Results vary based on starting weight, adherence, nutrition, activity level, and individual response.

Routine laboratory monitoring may be required.

Long-term success requires a comprehensive approach that includes nutrition, movement, sleep, and lifestyle optimization.
