We will hear the great commandment 'Love God and love everyone'. We will learn about Easter and celebrate by growing seeds, make an Easter garden and enjoy eating some hot cross buns.

Physical Development

We will continue to develop both our fine and gross motor skills through daily provision and through play. We will use gardening tools outdoors and explore our new water play resources.

Understanding the World

We will plant seeds and care for growing plants. We will begin to understand the need to respect and care for the natural environment and all living things. During science week we will carry out experiments with different vegetables and observe the changes.

Expressive Arts and Design

We will observe and look at Spring flowers and make observational drawings. We will learn how to use scissors to snip. Also, we will make cards for special people and Easter.
