

Timetables and Homework

Reading

Please read with your child daily to increase fluency and understanding.

Sharing texts with children is an essential part of our homework regime. Hearing an adult read a book helps children to gain understanding, fluency and intonation. Your child will receive a class library book and a scheme book until they become a 'free reader,' when they may read any book from the class library or from home. All books, including books from home, need to come in and out of school on a daily basis. Scheme books will be changed on a Monday.

Spellings

Weekly spellings are taught on a Wednesday and set, via the Spelling Shed website, on that Wednesday. We have started to hand out a hard copy of the weekly spellings, just in case you are unable to access Spelling Shed. It is essential, however, that if you can access it, the children go on the website, as there are different spelling games to make spelling fun.

Maths

Please continue to encourage your child to go on Times Tables Rockstars as often as possible for 10 minutes at a time. This is also an essential part of maths learning. Children can also access www.mangahigh.com through the school website. Both websites aid the children's mental maths strategies.

Homework mats

These will be given at the start of each term and collected by the class teacher during the last week of term. Well done to all the children who returned them in the Autumn term.

Dates

3M Rejoice Celebration- Tuesday 24th January 9.05am. 3M parents and carers, please sign in at the main entrance.

3B Rejoice Celebration- Tuesday 28th February 9.05am. 3B parents and carers, please sign in at the main entrance.

Performance- Tuesday 28th March- 2pm.

Outdoor PE- Mondays.

Indoor PE- Thursdays. All children across the year group should come in PE kits on PE days. Please make sure your child wears a school uniform jumper, cardigan or sweatshirt as part of this PE kit.

Housekeeping

All belongings should be clearly labelled with your child's name. We encourage the children to take responsibility for their own possessions and to ensure they have everything necessary for lessons.

Please provide fruit for a snack at playtime. Your child's water bottle should be clearly labelled and brought home at the end of each day, so that the bottle is emptied and cleaned.

Parents as Partners

This information will give you an idea of the work covered over this term. Thank you so much for your continued support.

Come and See Our topics are- Local church- Journeys, where the children learn about the journey through the church's year; Eucharist- Listening and Sharing, where the children learn about the Word of God and sharing in Holy Communion; Lent- Giving All, where children are reminded of Jesus' total giving.

English This term, year three are studying the following texts and films: play scripts, where the children will be studying the genre of play scripts and creating their own version of 'The Day the Lost Property Quit,' to perform to friends and family before the Easter holidays. Please see the date section overleaf. '**The Ride of Passage,**' a short film on the Literacy Shed website. Please don't watch it, as the children will be encouraged to make predictions. The film is a story from another culture and will involve the children in creating descriptions for characters and setting. '**The Grotlyn**' by **Benji Davies.** This is a rhyming story, where the characters create a myth about what the Grotlyn is. The children will be involved in writing diary entries from 'the Grotlyn's point of view.

Mathematics The children will be working on fractions and measures including length, time, mass and volume. Ask your child to use TimesTables Rockstars (link on school website) as often as possible. Count on and back in 1s, 2s, 3s, 4s, 5s, 8s and 10s. This helps children to learn tables.

With measures, look for different examples of measures around the home e.g. pounds, stones, grams, kilograms, pounds, pence, minutes, seconds, days, weeks, months, metres, centimetres, millimetres etc. Make a list of what each measure is used for. Learn to use an analogue and digital clock. Work out how long your favourite programmes is on for. If you watched it 5 times in the week, how many hours would you have watched it for? These are a few examples of real life mathematical situations. Work will also be set for children to complete on the Manga High website, which can be accessed through the school website.

Science

This term we will investigate and experiment forces and magnets, and rocks and soils. Please encourage your children to discuss their findings to develop their scientific vocabulary.

Geography

Weather and climate

In this topic we will be exploring the differences between weather and climate. We will analyse the weather and climate in different regions around the world; in our local area; how the temperature and rainfall has changed over time; discuss why this might be the case and the effects it has. Please encourage the children to find examples of climate change and bring these in to share so that we can discuss how to make changes to our lifestyles in order to make a difference to climate change.

PE During PE, the children will cover the following sports- cricket, athletics, swimming and dance.

Design and Technology The children will be creating a 3D product from a 2D design using sewing skills.

Art The children will working with shape and colour to create collage pieces in the style of Henri Matisse, linked to our previous history topic of Ancient Egypt.

Finding out more: At your local library, there will be a wide range of books covering these topics. The following websites may also be of interest to you:
