### The Quick Story Behind BIER

Bier Brewery and Taproom has been family-owned and operated since 2010. Darren Connor had the passion for brewing and his dad, Jerry Connor believed in him. The Connor's started with a 55-gallon brewing set up. This "little more than a glorified homebrew system" quickly changed to an 80 gallon and 8 barrel system. Bier quickly received a reputation for having high quality and consistent biers around town. Therefore, after five years of knocking out over 100 different styles and 1,602 batches on their 8 barrel system, demand told them it was time to expand.

In 2015, Bier Brewery expanded to a 20 barrel system and started canning their biers.

Fast forward to 2018 and almost 100 awards later, Bier Brewery expanded again, adding another taproom in Carmel, Indiana. The Connors', including brother/son Ryan Connor and sister/daughter Leah Keene have partnered with Chip and Pam Edgington for Bier Brewery North.
