## Discotheque

(R. Nelsen, B. Crace, J. Nelsen)

I went down to the discotheque as she was holding court down on the floor  
T. Rex played on the stereo all the young dudes shout for more  
She walked down and looked at me and I was shaking like the leaves on a tree  
She said honey you look so fine won't you spend a little time on me

My jaw dropped to the floor I wanted to hear more I couldn't tell if she was teasing me  
And the chance I couldn't miss so I tried to steal a kiss she pulled right away from me  
She said "baby if you want my love you've gotta buy me a drink."

I went down to the record shop just looking for a brand-new beat  
There she was standing all alone thumbing through the b's and the c's  
I walked up and got real close and she said "long time no see  
what you doing here pretty boy I think you owe me a drink"

So we started walking trash we were talking I pulled out my flask and gave her a drink  
We walked right by the place where I first saw her face she looked right up at me  
She said "baby if you want my love you've gotta buy me a drink."

The night was nearly over and I was far from sober I turned around and all I could see  
Was this little vixen on someone else she's kissing the words I heard I couldn't believe  
When she said "baby if you want my love "She said "baby if you want my love  
She said "baby if you want my love you've gotta buy me a drink

## Hanging me up

(B. Crace)

You now the silly little things you say they're leaving me without a clue  
You know the stupid little things you do they're making me want somebody new  
I really don't know how long I can fake it babe I really can't take it much more  
But when your crying starts to ruin your makeup Just don't know if I can walk out that door

Chorus: When you're hanging me up with your fake little tears  
You're holding me down with your sad soaking eyes  
Hanging me up with your hopes and your fears  
You're holding me down with the way that you cry

Really don't know why I'm hanging around I should have left a long time ago  
Maybe it's all of your prescription pills making my brain work too slow  
Or maybe it's the way you move your body you know of it I just can't get enough  
But when reality kicks me in the teeth I realize I don't need none of that stuff

(Chorus)

But when you call me at midnight saying baby call 911  
I realize a whole lot sooner That I should've just cut out and run  
Well suicide's an ugly answer , You really should know by now  
That I just can't leave you hanging up You know I don't know how

(Chorus x2)

You're holding me down till the day that I die baby

## Nowhere to go

(R. Nelsen)

Well I've been down on the boulevards on a hunt for a familiar face

Streetlights are flickering on and I know that I ain't got no place

And I ain't got nowhere to go and I ain't got nowhere to go

You see I'm stranded and I'm all alone with no place to go

All the kids are hanging around they're sniffin' glue in a park downtown

Ain't gotta worry bout tomorrow babe cause it's days like this that I know it

That I ain't got nowhere to go and I ain't got nowhere to go

You see I'm stranded and I'm all alone with no place to go

And I ain't got nowhere to go

You see I'm stranded and I'm all alone With no place to go No, no place to go

Oh no, no place to go See I'm stranded and I'm all alone with no place to go

# Dangerous Game

(R. Nelsen, B. Crace)

I don't wanna ride alone on the subway  
Come pick me up in your mommy's new car  
I'm so tired and I've had such a long day  
Don't ring me up cause I ain't going too far

In this dangerous game called love dangerous game called love  
Dangerous game called love and I don't know why but I just can't get enough

Got me goin out my mind trying to please you  
Everyday I work my fingers to the bone  
And it seems as though there's nothing that I can do  
You leave me stranded baby standing all alone

(Chorus)

You know I always loved you but you never felt the same  
Ripped my heart out of my chest and you didn't feel an ounce of pain  
Well I played with fire and I got burned wish I could say my lessons learned But that's the  
way it goes I ain't lying to you no, no, no I said that's the way it goes And it's the only way I  
know

See you strutting round in high heels and lipstick top it off with a little white bow  
Got me wishing my libido had a kill switch  
Cause when I'm with you I feel like I might explode

(Chorus)

And I don't know why but my heart's still stuck

(Chorus)

And I don't know why but I just can't get enough

## Toys in The Attic

(B. Crace)

It's been a while now since I've seen your face

The kids have all grown up and moved away

I saw you in a dream last night

It woke me up and gave me quite a fright

Toys in the attic are all turning grey

You made my winter so much colder

And you dropped a big weight on my shoulders

Well since you left things have changed

Since you've gone away they've never been the same

Toys in the attic are all turning grey

I still have my photographs

And memories that make me laugh

I just can't seem to escape my past

And we never got to eat at Changs

And I forgot to give you your change

And now I just don't know what to do

I was told time heals all wounds

Mom's doing fine she keeps the wolves at bay

And that thing you built me broke the other day

Well I've been doing everything I can

Just trying to hold my head high and to be a man

While toys in the attic are all turning grey

# Smirk

(R. Nelsen, B. Crace)

Oh girl I see through your lies though you hide them well under your disguise  
I see you talking and trying to pry but these tear stained pictures tell no lies

There's nothing you can do I'm so bored with you  
I really hope that I just wiped that smirk right off Of your face

I can see what you're doing to me by bringing back all those memories  
I won't sink in your amphetamines  
You know I'm packing my bags and it's time to leave  
Ain't gonna see you again don't try to talk to my friends  
It's too late for amends just wipe that smirk right off

Years later we will meet again  
But I know better we just can't be friends  
I never knew forever had an end  
So I'll just keep walking trying to pretend

That everything is fine  
Like you were never mine  
I really hope that I just wiped that smirk right off

# Shakin'

(R. Nelsen, B. Crace, J. Nelsen)

Kids are all coming from miles around  
You in the suburbs take the bus downtown  
Even my parents wanna make the trip  
But if they find out what we're doing it would make them sick

We're just dancing and doin it right  
Pop some blues, we'll be up all night  
Going inside, outside, upside down  
And we ain't gonna stop until we hit the ground

We're shakin, shakin like a vibrator  
Burnin, burnin like the radiator  
Come on, come on, come on a little closer to me  
Shakin, shakin like a vibrator  
Burnin, burnin like that radiator  
Come on, come on give what your mama gave you to me

Don't gotta worry bout catching the bus  
You'll be fine come and stay with us  
We've got plenty of smokes we've got plenty of Schlitz  
We got a stereo baby, playing all those hits

If you get bored we can go to my pad  
Just careful not to wake up mom and dad  
Sneak upstairs and into my room  
And I can show what's inside my fruit of the looms

(Chorus)

# Seventeen

(B. Crace)

Yeah, you're only seventeen

But listen honey that's fine by me

Cause you know I never get no relief without you here by me

It's not just the way you dress

It ain't about the way you cut that hair

You know you really got me hooked on you

It tears me up when you're not there

You're so far away

And I heard your mommy say

Don't let your daddy find out or else he'll tear my heart out

Your folks say it's not true romance

Your daddy wouldn't even give me a chance

Your mommy says that boy's no good

He just wants to get inside of your pants

People tell me that you're too young

People saying that my songs been sung

Well I'm just trying to have some fun, fun, fun

And maybe baby I can make you come

Along for the ride so won't you come inside

Don't let your daddy find out or else he'll tear my heart out

Don't let your daddy find out or else he'll tear my heart out

You're only seventeen

## He Said She Said

(R. Nelsen)

Things sure changed since I've seen your face  
Oh sweet girl I've got no time to waste  
With that he said, she said With that he said, she said

I know what you're thinking about  
Don't let those words come out your mouth  
With that he said, she said With that he said, she said

Time has come and I don't feel right guess I'll pay the price  
You can't even look at me Can't look me in the eyes I said not even in the eyes

People always talking bout How me and you won't work it out  
But that's all he said, she said Oh it's all he said, she said  
Your mom and dad don't like me now But I don't care anyhow Cause it's all he said, she said  
Oh it's all he said, she said

(Chorus)

And it's he said, she said He said, she said It's all he said, she said He said, she said It's all he  
said, she said, he said

(Chorus)

And it's he said, she said

# Same Old Story

(D. Berkham)

It's the same old story now

When I saw you walking down the street with your new boyfriend in hand  
Looked so happy with a smile on your face I never could forgive myself for letting you go  
My esteem is certainly low it's the same old story now

Many times I listened to your lies and you stabbed my back in the end  
And I don't think I can live with trying to just remain your friend  
Those words, felt so angry and sad  
The hate, feelings I've never had  
It's the same old story now

You know I tried so hard to get you girl  
And I just can't get you off my mind  
But I find it hard to understand how can I forget you when you're so unkind

Gave my heart to you, you used it awhile Another number put away in your file  
How many more hearts must you go out and break And now I know it was a big mistake  
Tried to fall in love with you Now I'm so glad we're through  
It's the same old story now

Well it's the same old story now  
Well it's the same old story now  
Oh it's the same old story  
Same old story  
Same old story now
