

INTRODUCTION

SOZO (Greek) means SAVED, HEALED AND WHOLE. Sozo Ministries International also believe the Father heals His people as they enter into worship in the presence of holiness, and in the power of the anointing of the Holy Ghost. It is their desire to bring the message of the whole gospel to God's people and the world. Jesus died that we might be saved, healed and made whole.

Pastor Marion Daniel, supported by the Daniel family, has formed a team of people including musicians and counsellors who minister the whole gospel and the revelation that God delivers and heals as His people praise and worship Him in holiness, spirit and in truth. The results have been miraculous with testimonies stretching up and down the UK and Ireland that indeed testify that complete healings have taken place.

Local Pastor Walker Gorman from Co.Down who co-ordinated the event recently at Kiltonga Christian Centre, spoke exclusively to 3-in-1 Supplements with regard to the ministry and the importance of healing as a powerful witness for God's power. You will also read one person's testimony from this particular event, whereby she has received total and complete healing from ME which she suffered from for 9 years.

Pastor Marion Daniel speaks with authority on the subject and explains to those gathered the importance of the Word of God and the proper application of it concerning this area and other areas of our walk. The conference was more of an experience of the Holy Spirit for me personally demonstrating not only His power but His gentle soothing touch for those in desperate need, and were those ministering allowed Him to access all areas and to meet the need of each individual were they where...

Marion spoke exclusively in an in-depth interview which will be published in its entirety in a forthcoming edition of 3-in-1 The Voice IN FOCUS, but in the meantime please learn more about this ministry that promotes not only healing but the amazing grace of God...

My Story

By

'They overcame him by the blood of the Lamb and by the word of their testimony' Rev 12v11

HOW GOD HEALED ME FROM ME AFTER 10 YEARS!

I was diagnosed with ME/CFS in 2001. I had previously been fit and healthy, bringing up 2 children with my husband as well as working as a home help.

Since 2001, I spent almost all of my time searching for answers, treatment and of course healing. This illness sent me and my family to despair. I read endless books, searched the internet, watched hundreds of religious TV programmes and attended many meetings and healing services.

In 2009 I was led to a woman's meeting in my home town. I met two ladies there whom I believe have played an integral part in my healing. Over the following few months the two ladies visited me in my home several times. Most importantly, they led us in prayer and during these moments, I was able to release many negative issues that I had been clinging on to. These were difficult times but after each occasion, I felt I was giving up "stones" that I had been unconsciously storing up.

After one of the visits, we discussed a ministry called SOZO that was planning a visit to Northern Ireland in May 2010. The conference that SOZO were about to lead was centred on releasing folk from the curses of Freemasonry and other brotherhoods. Some of the men

in my family had sworn oaths to local lodges and I felt that the conference could help me on my road to recovery.

I attended the conference and realised that the healing that God promised had been stalled by curses and allegiances sworn by others, who really did not know or understand fully what they were doing. During the day, I was completely released from these chains and was keen to join SOZO at their next conference the following couple of days.

On arrival at the conference, I received a Word from the Lord, who told me to be prepared to stay at the meeting and make sure I get ministry, no matter how late it was. As the evening drew to a close, I was determined to speak with one of the ministry team and waited patiently. The personal ministry I received highlighted some final issues and I can positively assure you that from that moment my healing became whole and everlasting. Praise God.

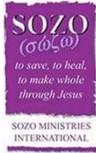

BUT BY MY SPIRIT

*When all effort waxes weak,
and future dark, dreary, dreek.
Crushings cut, by exposed elements,
against my teary rock of stubborn laments.*

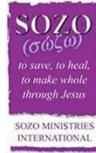

*Here, on blistered knee, and worn-out shoe,
He lifts my glazed chin, to gaze deep within.
Why son do you cry son, you know I'd
die son, to carry you*

Pastor Walker Gorman

Living a life of Faith...

Q Hi Pastor Gorman can you tell a little about yourself?

A I am from Millisle in Co.Down and began pastoring in Millisle Elim in 1976. I pastured there for a number of years then moved to Donaghadee 21 years ago Three weeks after I got saved I went to a healing conference in Belfast and watched dozens and dozens of people being healed all around me. No one had ever told me that healing was for today, no one had ever told me that healing was available; here I am a young convert being convicted by the power of God.

Q How much of an impact did this have?

A Well, I came away feeling well if this is available then this world needs this, and I want it, I want something of this for the needs of the people. So then I really sought God for a deeper experience, was baptised in the Holy Spirit and then began to see just one or two at the start receiving healing when we prayed for them.

Q Did you have a personal encounter which really spoke to you about God's power in this area?

A Well my daughter got healed from ME 14 years ago, she had been paralysed with the disease; following this event we were launched us into a different realm, if you like.

Q How was your daughter healed?

A Well whenever she contracted the disease we had the world and it's granny pray for her but to no avail. I couldn't understand because as I watched others being healed during this time and yet my own daughter wasn't I decided that there must be more going on than what we could see with our eyes. Then I heard about SOZO Ministries International and ended up taking my daughter to two of their conferences and Andrea received complete healing at the second conference.

Q Because of your daughter's miraculous healing has your own ministry naturally followed the promotion of healing from this?

A 'There are two main prongs to my pastoral ministry one is evangelism and the other is healing. We would see probably 7 people a year on average healed from ME every year.

Q Now in the bible it tells us about going to the elders of the church and be anointed in order to receive healing and laying on hands. So what would you say if someone says that they are moved by the Holy Spirit to pray for someone?

A Yes I believe that is a very valid biblical concept, as I see it God has set numerous things in place for our healing. First of all our immune system, the scriptures say 'the weak man will eat herbs', so we have herbs and the leaves of the trees, therefore he has natural things in place. However, then supernaturally we have got the gifts of healing – laying on off hands, elders of the church anointing with oil, in these cases you can get 'instant' healings or miracles with ME for instance it is usually a gradual process that has been started. I believe from personal experience that with ME there is an emotional side and as the emotions get healed and the ability to handle life improves so does the condition. As part of their healing in most cases of ME 'life skills' are missing or not very good, we promise to stay with anyone during this healing process and enable them to

learn and possess 'life skills'. One of the phrases used with ME is getting one's life in order, in the bible it tells us 'My people perish for lack of knowledge.' People need to know the things that often hold up their healing so they can make it right before God and receive their healing.

Q You mentioned that your daughter was healed from this very condition so does she now work in this ministry?

A She does in that she shares her testimony in churches all over but she is now a pharmacist and wants to contribute to people's lives that way. She is planning to become a herbal doctor to incorporate the knowledge of the medical profession and the knowledge and resources God has given us.

Q Most people would be a bit 'nervous' or dubious about herbalism in the secular context because of the link with the occult how would you explain to people God's will for this area?

A Quite simply the bible says 'the weak eat herbs' and 'the leaves of the trees are for the healing of the nations.' Plus in Genesis right at the very beginning of time it is written 'their meat shall be the fruit of the trees whose seed is in the fruit.' Therefore that was mankind's original food was fruit. Therefore we have healing and promotion of a healthy lifestyle.

Q Do you network with other ministries and where do you see your ministry going from here?

A We bring SOZO over to Northern Ireland every year for the last 14 years. I would also be involved with two or three Pentecostal ministries who would be delivering healing to people.
