

## Bakery Bites

Last month we shared the specialty items that are featured as a regular part of our bakery. New items, since our initial newsletter include two new breakfast items; gluten-free cider doughnuts and blueberry muffins.

Since October has finally arrived, we are all about pumpkin! Chef Michael and the bakery staff have been preparing a wide variety of fall items. The most popular item is our Fall butter cake. It has a pumpkin and spice cake base with traditional pumpkin pie cream cheese top. Another favorite is pumpkin pie bar; a delicious combination of cheesecake and pumpkin pie.

Looking for a fall cookie? A local favorite has become the pumpkin snickerdoodle. It would also not be Fall at the Apple Barn without pumpkin whoopie pies, gluten-free and regular pumpkin bread, pumpkin muffins, pumpkin cheesecake and pumpkin pies! We invite you to stop by and sample one of the many fall desserts or stick with a traditional favorite.

Its not too early to start thinking about Thanksgiving pies or goodies for the holidays. We will have a complete list for the November newsletter as well as many Facebook posts!
